

Better Care Fund Template Q4 2019/20

1. Guidance

Overview

The Better Care Fund (BCF) quarterly reporting requirement is set out in the BCF Planning Requirements document for 2019-20 which supports the aims of the Integration and BCF Policy Framework and the BCF programme jointly led and developed by the national partners Department of Health (DHSC), Ministry for Housing, Communities and Local Government (MHCLG), NHS England (NHSE), Local Government Association (LGA), working with the Association of Directors of Adult Social Services (ADASS).

The key purposes of the BCF quarterly reporting are:

- 1) To confirm the status of continued compliance against the requirements of the fund (BCF)
- 2) To provide information from local areas on challenges, achievements and support needs in progressing the delivery of BCF plans
- 3) To foster shared learning from local practice on integration and delivery of BCF plans
- 4) To enable the use of this information for national partners to inform future direction and for local areas to inform improvements

BCF quarterly reporting is likely to be used by local areas, alongside any other information to help inform HWBs on progress on integration and the BCF. It is also intended to inform BCF national partners as well as those responsible for delivering the BCF plans at a local level (including clinical commissioning groups, local authorities and service providers) for the purposes noted above.

BCF quarterly reports submitted by local areas are required to be signed off by HWBs as the accountable governance body for the BCF locally and these reports are therefore part of the official suite of HWB documents.

The BCF quarterly reports in aggregated form will be shared with local areas prior to publication in order to support the aforementioned purposes of BCF reporting. In relation to this, the Better Care Support Team (BCST) will make the aggregated BCF quarterly reporting information in entirety available to local areas in a closed forum on the Better Care Exchange (BCE) prior to publication.

Reporting on additional Improved Better Care Fund (iBCF) funding is now included with BCF quarterly reporting as a combined template. The BCST along with NHSE hosted information infrastructure will be collecting and aggregating the iBCF information and providing it to MHCLG. Although collected together, BCF and iBCF information will be published separately.

The Winter Pressures Grant is pooled within the BCF and is part of the BCF plans. Q4 19/20 quarterly reporting for the BCF include a separate tab to report on the Winter Pressures Grant.

Note on entering information into this template

Throughout the template, cells which are open for input have a yellow background and those that are pre-populated have a grey background, as below:

Data needs inputting in the cell

Pre-populated cells

Note on viewing the sheets optimally

To more optimally view each of the sheets and in particular the drop down lists clearly on screen, please change the zoom level between 90% - 100%. Most drop downs are also available to view as lists within the relevant sheet or in the guidance tab for readability if required.

The details of each sheet within the template are outlined below.

Checklist (2. Cover)

1. This section helps identify the data fields that have not been completed. All fields that appear as incomplete should be complete before sending to the Better Care Support Team.
2. It is sectioned out by sheet name and contains the description of the information required, cell reference for the question and the 'checker' column which updates automatically as questions within each sheet are completed.
3. The checker column will appear "Red" and contain the word "No" if the information has not been completed. Clicking on the corresponding "Cell Reference" column will link to the incomplete cell for completion. Once completed the checker column will change to "Green" and contain the word "Yes"
4. The 'sheet completed' cell will update when all 'checker' values for the sheet are green containing the word 'Yes'.
5. Once the checker column contains all cells marked 'Yes' the 'Incomplete Template' cell (below the title) will change to 'Complete Template'.
6. Please ensure that all boxes on the checklist tab are green before submission.

2. Cover

1. The cover sheet provides essential information on the area for which the template is being completed, contacts and sign off.
2. Question completion tracks the number of questions that have been completed; when all the questions in each section of the template have been completed the cell will turn green. Only when all cells are green should the template be sent to england.bettercaresupport@nhs.net
3. Please note that in line with fair processing of personal data we request email addresses for individuals completing the reporting template in order to communicate with and resolve any issues arising during the reporting cycle. We remove these addresses from the supplied templates when they are collated and delete them when they are no longer needed.

3. National Conditions

This section requires the Health & Wellbeing Board to confirm whether the four national conditions detailed in the Integration and Better Care Fund planning requirements for 2019/20 (link below) continue to be met through the delivery of your plan. Please confirm as at the time of completion.

This sheet sets out the four conditions and requires the Health & Wellbeing Board to confirm 'Yes' or 'No' that these continue to be met. Should 'No' be selected, please provide an explanation as to why the condition was not met within the quarter and how this is being addressed. Please note that where a National Condition is not being met, the HWB is expected to contact their Better Care Manager in the first instance.

In summary, the four national conditions are as below:

National condition 1: Plans to be jointly agreed

National condition 2: NHS contribution to adult social care is maintained in line with the uplift to CCG Minimum Contribution

National condition 3: Agreement to invest in NHS commissioned out-of-hospital services

National condition 4: Implementation of the High Impact Change Model for Managing Transfers of Care

4. Metrics

The BCF plan includes the following four metrics: Non-Elective Admissions, Delayed Transfers of Care, Residential Admissions and Reablement. Plans for these metrics were agreed as part of the BCF planning process.

This section captures a confidence assessment on achieving the plans for each of the BCF metrics.

A brief commentary is requested for each metric outlining the challenges faced in achieving the metric plans, any support needs and achievements realised.

As a reminder, if the BCF plans should be referenced as below:

- Residential Admissions and Reablement: BCF metric plans were set out and collected via the BCF Planning Template

- Non Elective Admissions (NEA): The BCF metric plan mirrors the CCG (Clinical Commissioning Groups) Operating Plans for Non Elective Admissions at a HWB footprint. These plans were made available to the local areas via the respective Better Care Managers and remain valid. In case a reminder of your BCF NEA plan at HWB level is helpful, please write into your Better Care Manager in the first instance or the inbox below to request them:

england.bettercaresupport@nhs.net

- Delayed Transfers of Care (DToC): The BCF metric ambitions for DToC are nationally set and remain the same as the previous year (2018/19) for 2019/20. The previous year's plans on the link below contain the DToC ambitions for 2018/19 applicable for 2019/20:

<https://www.england.nhs.uk/publication/better-care-fund-2018-19-planning-data/>

This sheet seeks a best estimate of confidence on progress against the achievement of BCF metric plans and the related narrative information and it is advised that:

- In making the confidence assessment on progress, please utilise the available published metric data (which should be typically available for 2 of the 3 months) in conjunction with the interim/proxy metric information for the third month (which is eventually the source of the published data once agreed and validated) to provide a directional estimate.

- In providing the narrative on Challenges and Support needs, and Achievements, most areas have a sufficiently good perspective on these themes by the end of the quarter and the unavailability of published metric data for one of the three months of the quarter is not expected to hinder the ability to provide this useful information. Please also reflect on the metric performance trend when compared to the quarter from the previous year - emphasising any improvement or deterioration observed or anticipated and any associated comments to explain.

Please note that the metrics themselves will be referenced (and reported as required) as per the standard national published datasets.

5. HICM

The BCF National Condition 4 requires local areas to implement the High Impact Change Model (HICM) for Managing Transfers of Care. This section of the template captures a self-assessment on the current level of implementation, for the reported quarter, and anticipated trajectory for the future quarter, of each of the eight HICM changes and the red-bag scheme along with the corresponding implementation challenges, achievements and support needs.

The maturity levels utilised on the self-assessment dropdown selections are based on the guidance available on the published High Impact Changes Model (link below). A distilled explanation of the levels for the purposes of this reporting is included in the key below:

Not yet established - The initiative has not been implemented within the HWB area

Planned - There is a viable plan to implement the initiative / has been partially implemented within some areas of the HWB geography

Established - The initiative has been established within the HWB area but has not yet provided proven benefits / outcomes

Mature - The initiative is well embedded within the HWB area and is meeting some of the objectives set for improvement

Exemplary - The initiative is fully functioning, sustainable and providing proven outcomes against the objectives set for improvement

<https://www.local.gov.uk/our-support/our-improvement-offer/care-and-health-improvement/systems-resilience/high-impact-change-model>

For the purposes of the BCF in 2019/20, local areas set out their plans against the model applicable since 2017/18. Please continue to make assessments against this erstwhile HICM model and any refreshed versions of the HICM will be considered in the future as applicable.

In line with the intent of the published HICM model self-assessment, the self-assessment captured via BCF reporting aims to foster local conversations to help identify actions and adjustments to progress implementation, to understand the area's ambition for progress and, to indicate where implementation progress across the eight changes in an area varies too widely which may constrain the extent of benefit derived from the implementation of the model. As this is a self-assessment, the approaches adopted may diverge considerably from area to area and therefore the application of this information as a comparative indicator of progress between areas bears considerable limitations.

In making the self-assessment, please ensure that a representative range of stakeholders are involved to offer an assessment that is as near enough as possible to the operational reality of the area. The recommended stakeholders include but are not limited to Better Care Managers, BCF leads from CCGs and LAs, local Trusts, Care Sector Regional Leads, A&E Delivery Board representatives, CHiAs and regional ADASS representatives.

The HICM maturity assessment (particularly where there are multiple CCGs and A&E Delivery Boards (AEDBs)) may entail making a best judgment across the AEDB and CCG lenses to indicatively reflect an implementation maturity for the HWB. The AEDB lens is a more representative operational lens to reflect both health and social systems and where there are wide variations in implementation levels between them, making a conservative judgment is advised. Where there are clear disparities in the stage of implementation within an area, the narrative section should be used to briefly indicate this, and the rationale for the recorded assessment agreed by local partners.

Where the selected maturity levels for the reported quarter are 'Mature' or 'Exemplary', please provide supporting detail on the features of the initiatives and the actions implemented that have led to this assessment.

For each of the HICM changes please outline the challenges and issues in implementation, the milestone achievements that have been met in the reported quarter with any impact observed, and any support needs identified to facilitate or accelerate the implementation of the respective changes.

To better understand the spread and impact of Trusted Assessor schemes, when providing the narrative for "Milestones met during the quarter / Observed impact" please consider including the proportion of care homes within the locality participating in Trusted Assessor schemes. Also, any evaluated impacts noted from active Trusted Assessor schemes (e.g. reduced hospital discharge delays, reduced hospital Length of Stay for patients awaiting care home placements, reduced care home vacancy rates) would be welcome.

Hospital Transfer Protocol (or the Red Bag Scheme):

- The template also collects updates on areas' implementation of The optional 'Red Bag' scheme. Delivery of this scheme is not a requirement of The Better Care Fund, but it has been agreed to collect information on its implementation locally via The BCF quarterly reporting template as a single point of collection.

- Please report on implementation of a Hospital Transfer Protocol (also known as The 'Red Bag scheme') to enhance communication and information sharing when residents move between Care settings and hospital.

- Where there are no plans to implement such a scheme Please provide a narrative on alternative mitigations in place to support improved communications in Hospital Transfer arrangements for social Care residents.

- Further information on The Red Bag / Hospital Transfer Protocol: The quick guide is available on the link below:

<https://www.england.nhs.uk/publication/redbag/>

Further guidance is also available on the Kahootz system or on request from the NHS England Hospital to Home team through:

england.ohuc@nhs.net

6. Integration Highlights

Please tell us about an integration success story observed over reported quarter highlighting the nature of the service/scheme or approach and the related impact.

Where this success story relates to a particular scheme type (as utilised in BCF planning) please select the scheme type to indicate that or the main scheme type where the narrative relates to multiple services/scheme types or select "Other" to describe the type of service/scheme.

Where the narrative on the integration success story relates to progressing one of the Enablers for Integrated Care, please select the main Enabler from the drop down. SCIE Logic Model for Integrated Care:

<https://www.scie.org.uk/integrated-care/measuring-evaluating/logic-model>

7. WP Grant

Reporting for Winter Pressures Grant is being collected alongside the BCF in a single mechanism. For this quarter, the reporting is primarily seeking narratives and confirmation on progress against the delivery of the plans set out for the Winter Pressures Grant as part of the BCF planning process.

8. Income and Expenditure

The Better Care Fund 2019/20 pool constitutes mandatory funding sources and any voluntary additional pooling from LAs (Local Authorities) and CCGs. The mandatory funding sources are the DFG (Disabled Facilities Grant), the improved Better Care Fund (iBCF) grant, the Winter Pressures Grant and the minimum CCG contribution. A large proportion of areas also planned to pool additional contributions from LA and CCGs.

Income section:

- Please confirm the total HWB level actual BCF pooled income for 2019/20 by reporting any changes to the planned additional contributions by LAs and CCGs as was reported on the BCF planning template. Please enter the actual income from additional CCG and LA contributions in 2019/20 in the yellow boxes provided.

- Please provide any comments that may be useful for local context for the reported actual income in 2019/20.

Expenditure section:

- Please enter the total HWB level actual BCF expenditure for 2019/20 in the yellow box provided.

- Please provide any comments that may be useful for local context for the reported actual expenditure in 2019/20.

9. Year End Feedback

This section provides an opportunity to provide feedback on delivering the BCF in 2019/20 through a set of survey questions which are overall consistent with those from previous years.

The purpose of this survey is to provide an opportunity for local areas to consider the impact of BCF and to provide the BCF national partners a view on the impact across the country. There are a total of 9 questions. These are set out below.

Part 1 - Delivery of the Better Care Fund

There are a total of 7 questions in this section. Each is set out as a statement, for which you are asked to select one of the following responses:

- Strongly Agree
- Agree
- Neither Agree Nor Disagree
- Disagree
- Strongly Disagree

The questions are:

1. The overall delivery of the BCF has improved joint working between health and social care in our locality
2. Our BCF schemes were implemented as planned in 2019/20
3. The delivery of our BCF plan in 2019/20 had a positive impact on the integration of health and social care in our locality
4. The delivery of our BCF plan in 2019/20 has contributed positively to managing the levels of Non-Elective Admissions
5. The delivery of our BCF plan in 2019/20 has contributed positively to managing the levels of Delayed Transfers of Care
6. The delivery of our BCF plan in 2019/20 has contributed positively to managing the proportion of older people (aged 65 and over) who were still at home 91 days after discharge from hospital into reablement/rehabilitation services
7. The delivery of our BCF plan in 2019/20 has contributed positively to managing the rate of residential and nursing care home admissions for older people (aged 65 and over)

Part 2 - Successes and Challenges

This part of the survey utilises the SCIE (Social Care Institute for Excellence) Integration Logic Model published on this link below to capture two key challenges and successes against the 'Enablers for integration' expressed in the Logic Model.

Please highlight:

8. Outline two key successes observed toward driving the enablers for integration (expressed in SCIE's logic model) in 2019/20.
9. Outline two key challenges observed toward driving the enablers for integration (expressed in SCIE's logic model) in 2019/20?

As noted above, these are free text responses to be assigned to one of the following categories from the SCIE Integration Logic Model - Enablers summarised below. Please see link below for fuller details:

[SCIE - Integrated care Logic Model](#)

1. Local contextual factors (e.g. financial health, funding arrangements, demographics, urban vs rural factors)
2. Strong, system-wide governance and systems leadership
3. Integrated electronic records and sharing across the system with service users
4. Empowering users to have choice and control through an asset based approach, shared decision making and co-production
5. Integrated workforce: joint approach to training and upskilling of workforce
6. Good quality and sustainable provider market that can meet demand
7. Joined-up regulatory approach
8. Pooled or aligned resources
9. Joint commissioning of health and social care

10. Additional improved Better Care Fund

The additional iBCF sections of this template are on sheet '10. iBCF'. Please fill these sections out if you are responsible for the additional iBCF quarterly monitoring for your organisation, or local area.

Data must be entered on a Health and Wellbeing Board level.

The iBCF section of the monitoring template covers reporting in relation to the additional iBCF funding announced at Spring Budget 2017 only.

Better Care Fund Template Q4 2019/20

2. Cover

Version 1.1

Please Note:

- The BCF quarterly reports are categorised as 'Management Information' and are planned for publishing in an aggregated form on the NHSE website. Narrative sections of the reports will not be published. However as with all information collected and stored by public bodies, all BCF information including any narrative is subject to Freedom of Information requests.*
- As noted already, the BCF national partners intend to publish the aggregated national quarterly reporting information on a quarterly basis. At a local level it is for the HWB to decide what information it needs to publish as part of wider local government reporting and transparency requirements. Until BCF information is published, recipients of BCF reporting information (including recipients who access any information placed on the BCE) are prohibited from making this information available on any public domain or providing this information for the purposes of journalism or research without prior consent from the HWB (where it concerns a single HWB) or the BCF national partners for the aggregated information.*
- This template is password protected to ensure data integrity and accurate aggregation of collected information. A resubmission may be required if this is breached.*
- As in previous quarters, the BCST along with NHSE hosted information infrastructure will be collecting and aggregating the iBCF Grant information and providing it to MHCLG. Although collected together, BCF and iBCF information will be reported and published separately.*
- The Winter Pressures Grant is pooled within the BCF and is part of the BCF plans. Q4 19/20 quarterly reporting for the BCF include a separate tab to report on the Winter Pressures Grant.*

Selected Health and Wellbeing Board:

Stockport

Confirmation of Nation Conditions		
National Condition	Confirmation	If the answer is "No" please provide an explanation as to why the condition was not met within the quarter and how this is being addressed:
1) Plans to be jointly agreed? (This also includes agreement with district councils on use of Disabled Facilities Grant in two tier areas)	Yes	
2) Planned contribution to social care from the CCG minimum contribution is agreed in line with the Planning Requirements?	Yes	
3) Agreement to invest in NHS commissioned out of hospital services?	Yes	
4) Managing transfers of care?	Yes	

Better Care Fund Template Q4 2019/20

4. Metrics

Selected Health and Wellbeing Board:

Stockport

Challenges and Support Needs Please describe any challenges faced in meeting the planned target, and please highlight any support that may facilitate or ease the achievements of metric plans

Achievements Please describe any achievements, impact observed or lessons learnt when considering improvements being pursued for the respective metrics

Metric	Definition	Assessment of progress against the metric plan for the quarter	Challenges and any Support Needs	Achievements
NEA	Total number of specific acute (replaces General & Acute) non-elective spells per 100,000 population	On track to meet target	.	At the end of the 19/20 financial year, NEL admissions were -8.7% below plan (-0.9% nationally), a reduction of -3.1% on the previous financial year (+0.8% nationally). Note, there is a substantial COVID impact in March 2020.
Res Admissions	Rate of permanent admissions to residential care per 100,000 population (65+)	On track to meet target	The older adult population has seen an increase from 49,091 in 2008 to 58,064 in 2018 and is predicted to increase further. There is a corresponding increase in adults aged 85 and over, who are more likely to	Stockport MBC met the target of 390 admissions (equating to 659 per 100,000 population aged 65+). This is despite the population pressures outlined in 'Challenges and any Support Needs'.
Reablement	Proportion of older people (65 and over) who were still at home 91 days after discharge from hospital into reablement / rehabilitation services	On track to meet target	.	Stockport MBC met the target of 95%.
Delayed Transfers of Care	Average Number of People Delayed in a Transfer of Care per Day (daily delays)	Not on track to meet target	DToc information has been published up to the end of February 2020. The main reasons for NHS Delays are access to further non-acute NHS provision and access to nursing care. For social care, the main reasons are	Social care delays have seen an overall decrease compared with 2018/19.

5. High Impact Change Model

Selected Health and Wellbeing Board:

Stockport

Challenges and Support Needs

Please describe the key challenges faced by your system in the implementation of this change, and Please indicate any support that may help to facilitate or accelerate the implementation of this change

Milestones met during the quarter / Observed Impact

Please describe the milestones met in the implementation of the change or describe any observed impact of the implemented change

			Narrative		
		Q4 19/20	If 'Mature' or 'Exemplary', please provide further rationale to support this assessment	Challenges and any Support Needs	Milestones met during the quarter / Observed impact
Chg 1	Early discharge planning	Established		The frailty team offer early assessment at the front end of the hospital. This is an MDT approach to early discharge and comprises of SW, therapist, ward tracker, geriatrician and GP's. This	Good progress has been made around ED for frail older people. Reduction in long length of stay patients. Supporting ward areas to identify key
Chg 2	Systems to monitor patient flow	Mature	In addition to the previously noted ongoing activities to support safe and timely discharge, additional senior management support has been deployed from both CCG & Adult Social	Winter demands continue to put pressure on services. Pressures on the D2A pathway were subsequently addressed through additional D2A capacity.	Despite winter challenges progress was made on maximising complex discharges from the ITT. Reduction in long length of stay patients.
Chg 3	Multi-disciplinary/multi-agency discharge teams	Mature	ITT is an established MDT approach to discharge comprising off, social workers, discharge coordinators, ward trackers. Mental health practitioners, homeless workers, age UK back home and	Continued pressures on staffing levels and management of sickness levels during the winter period	Senior management capacity was deployed by the CCG and Adult Social Care to support ITT.
Chg 4	Home first/discharge to assess	Established		11 step down flats established as part of the winter plan. There have been challenges to fully embed the process and take up of this capacity due to level of acuity and need of individuals to be	Performance of these flats was disappointing and resulted in commissioners looking at other step down provision.

Chg 5	Seven-day service	Established		The main challenge to this is embedding a seven-day service across the system and to have sufficient capacity to allow more weekend admissions into the community. Resilience has been	There is a seven day system offer, including community service including S/W, nurses, therapy staff (FRESH), CRT, Reach. ATMs in ITT now undertake seven day working to support with
Chg 6	Trusted assessors	Mature	The team is fully established and working well, and comprises of a Social Worker, Nurse and Mental Health specialist. Relationships with the care homes remain positive and we continue	Not all care homes have wholly adopted the TA model and continue to prefer to complete their own assessments due to company policy or their own availability of staff, but we are working with them	A hospital care home forum has been established, with the first two meetings now having taken place. The purpose of these meetings is to brief and support care homes and to offer information to
Chg 7	Focus on choice	Mature	Robust Choice Protocol in place. Choice includes, discharge to assess, reablement, step down, intermediate care. A letter is given to patients/carers regarding choice.	The main challenge is preparing individuals and families to make decisions on their short and long-term care. This can cause delays, even with preparation, and a consistent approach	The Choice policy was signed off in Q4. Through the Councils proposed Residential and Nursing Care commissioning approach for 2020/21
Chg 8	Enhancing health in care homes	Mature	GP practices aligned to care homes in all areas, who do proactive ward rounds to support with management / to pro-actively prevent deterioration. Equip Team, enhanced Quality	Full implementataion of the Tele-health pilot project with Care Homes. Recruitment and retention of staff in care homes especially qualified nursing	Pilot geriatrician working with some of the most complex cases in care homes. Telehealth pilot supporting improved responsiveness to managing patients in care homes, preventing hospital

Hospital Transfer Protocol (or the Red Bag scheme)

Please report on implementation of a Hospital Transfer Protocol (also known as the 'Red Bag scheme') to enhance communication and information sharing when residents move between care settings and hospital.

		Q4 19/20	If there are no plans to implement such a scheme, please provide a narrative on alternative mitigations in place to support improved communications in hospital transfer arrangements for social care residents.	Challenges	Achievements / Impact
UEC	Red Bag scheme	Mature		The change in staffing in care homes can make initiatives such as a dedicated 'Red Bag Champion' in each care home challenging. We are also not receiving completed data collection spreadsheets	VF to find out

Integration success story highlight over the past quarter:

Please give us an example of an integration success story observed over the past quarter. This could highlight system level collaborative approaches, collaborative services/schemes or any work to progress the enablers for integration (as per the SCIE logic model for integrated care). Please include any observed or anticipated impact in this example.

The Technology Enhanced Living Service (TEL) which is commissioned by SMBC has evolved into a highly responsive service which has integrated working as a core principle to ensure a person gets the best possible care and support when needed. The aims of the service is to explore the use of technology to:

- Identify illness/deterioration at the earliest opportunity
- Intervene early and appropriately
- improve health and social care outcomes for people
- Prevent unnecessary admission to hospital where possible
- Identify appropriate escalation of care through integrated whole system response when necessary.

The service incorporates 3 elements which is designed to be adaptive and responsive to different levels of need to prevent but also respond.

The 3 elements are:

- A digital platform which monitors a person's physiological observations such as oxygen saturation levels, Blood pressure, temperature, movement, heart rate and rhythm. The

7. Winter Pressures Grant

Selected Health and Wellbeing Board:

Stockport

In 2019/20, the Winter Pressures Grant was planned and pooled in the BCF. Please report on the actual spend and outputs (Hours of Care, Packages, Placements and Beds) funded through the Winter Pressures Grant.

WP Grant Expenditure

Scheme Type	Planned Expenditure	Actual Expenditure (2019/20)
1 Assistive Technologies and Equipment	£ -	£ 346,725
2 Care Act Implementation Related Duties	£ -	£ -
3 Carers Services	£ -	£ -
4 Community Based Schemes	£ -	£ 183,490
5 DFG Related Schemes	£ -	£ -
6 Enablers for Integration	£ -	£ -
7 HICM for Managing Transfer of Care	£ -	£ 63,945
8 Home Care or Domiciliary Care	£ -	£ 125,559
9 Housing Related Schemes	£ -	£ -
10 Integrated Care Planning and Navigation	£ -	£ -
11 Intermediate Care Services	£ -	£ 432,440
12 Personalised Budgeting and Commissioning	£ -	£ -
13 Personalised Care at Home	£ -	£ -
14 Prevention / Early Intervention	£ -	£ -
15 Residential Placements	£ -	£ 125,559
16 Other	£ 1,283,215	£ 5,497
Winter Pressures Grant Total Spend	£ 1,283,215	£ 1,283,215

WP Grant Outputs

	Hours of Care	Packages	Placements	Beds
Total Planned Outputs	-	-	-	-
Total Actual Outputs (based on the total actual WPG spend reported above)	7,368.0	33.0	10.0	13.0

Please describe any significant changes to the planned approach for the use of the Winter Pressures Grant, either in terms of spend on specific schemes or on the delivery of outputs.

Please also confirm the agreement by LAs and CCGs to these changes and the involvement of local acute trusts.

The commitments within the winter grant aligned to the localities winter planning programme and included support to various aspects of Adult Social Care services.

9. Year End Feedback

Selected Health and Wellbeing Board:

Stockport

Part 1: Delivery of the Better Care Fund

Please use the below form to indicate what extent you agree with the following statements and then detail any further supporting information in the corresponding comment boxes.

Statement:	Response:	Comments: Please detail any further supporting information for each response
1. The overall delivery of the BCF has improved joint working between health and social care in our locality	Agree	All BCF schemes contribute to system wide improvement across the economy.
2. Our BCF schemes were implemented as planned in 2019/20	Strongly Agree	All BCF schemes contribute to system wide improvement across the economy.
3. The delivery of our BCF plan in 2019/20 had a positive impact on the integration of health and social care in our locality	Agree	All BCF schemes contribute to system wide improvement across the economy.
4. The delivery of our BCF plan in 2019/20 has contributed positively to managing the levels of Non-Elective Admissions	Agree	All BCF schemes contribute to system wide improvement across the economy.
5. The delivery of our BCF plan in 2019/20 has contributed positively to managing the levels of Delayed Transfers of Care	Agree	All BCF schemes contribute to system wide improvement across the economy.
6. The delivery of our BCF plan in 2019/20 has contributed positively to managing the proportion of older people (aged 65 and over) who were still at home 91 days after discharge from hospital into reablement/rehabilitation services	Agree	All BCF schemes contribute to system wide improvement across the economy.
7. The delivery of our BCF plan in 2019/20 has contributed positively to managing the rate of residential and nursing care home admissions for older people (aged 65 and over)	Agree	All BCF schemes contribute to system wide improvement across the economy.

Part 2: Successes and Challenges

Please select two Enablers from the SCIE Logic model which you have observed demonstrable success in progressing and two Enablers which you have experienced a relatively greater degree of challenge in progressing.

Please provide a brief description alongside.

8. Outline two key successes observed toward driving the enablers for integration (expressed in SCIE's logical model) in 2019/20	SCIE Logic Model Enablers, Response category:	Response - Please detail your greatest successes
Success 1	Other	Joined up working in Discharge Team, added senior management capacity from both the CCG and Ault Social Care into this area to improve patient flow.
Success 2	3. Integrated electronic records and sharing across the system with service users	Use of IT, increased digital solutions have started to be introduced across the system

9. Outline two key challenges observed toward driving the enablers for integration (expressed in SCIE's logical model) in 2019/20	SCIE Logic Model Enablers, Response category:	Response - Please detail your greatest challenges
Challenge 1	6. Good quality and sustainable provider market that can meet demand	Keeping a fragile market in a good position. Whilst there remains a level of uncertainty there will be continued challenges into the future.
Challenge 2	5. Integrated workforce: joint approach to training and upskilling of workforce	Capacity and resilience across the system, especially during the winter period when staff absence increases and demand is usually higher.

Footnotes:

Question 8 and 9 are should be assigned to one of the following categories:

1. Local contextual factors (e.g. financial health, funding arrangements, demographics, urban vs rural factors)
 2. Strong, system-wide governance and systems leadership
 3. Integrated electronic records and sharing across the system with service users
 4. Empowering users to have choice and control through an asset based approach, shared decision making and co-production
 5. Integrated workforce: joint approach to training and upskilling of workforce
 6. Good quality and sustainable provider market that can meet demand
 7. Joined-up regulatory approach
 8. Pooled or aligned resources
 9. Joint commissioning of health and social care
- Other

10. Additional Improved Better Care Fund

Selected Health and Wellbeing Board:

Stockport

Additional improved Better Care Fund Allocation for 2019/20:

£ 1,809,477

Section A

Distribution of 2019-20 additional iBCF funding by purpose:

What proportion of your additional iBCF funding for 2019/20 have you allocated towards each of the three purposes of the funding?

	a) Meeting adult social care needs	b) Reducing pressures on the NHS, including supporting more people to be discharged from hospital when they are ready	c) Ensuring that the local social care provider market is supported	Total: Percentages must sum to 100% exactly
A1) Please enter the amount you have designated for each purpose as a percentage of the total additional iBCF funding you have been allocated for the whole of 2019-20. If the expenditure covers more than one purpose, please categorise it according to the primary purpose. <u>You must ensure that the sum of the percentage figures entered sums to 100% exactly.</u> If you have not designated any funding for a particular purpose, please enter 0% and do not leave a blank cell.	29%	39%	32%	100.0%

Section B

We want to understand how much additional capacity you have been able to purchase or provide in 2019/20 as a direct result of your additional iBCF funding allocation for 2019-20. Where the iBCF has not provided any such additionality, we want to understand why this is the case. Recognising that figures will vary across areas due to wider budget and service planning assumptions, please provide the following:

a) The number of home care packages provided in 2019-20 as a result of your additional iBCF funding allocation	b) The number of hours of home care provided in 2019-20 as a result of your additional iBCF funding allocation	c) The number of care home placements for the whole of 2019-20 as a result of your additional iBCF funding allocation
----------------------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------------------------------------

<p>B1) Please provide figures on the actual number of home care packages, hours of home care and number of care home placements you purchased / provided <u>as a direct result of your additional iBCF funding allocation for 2019-20. The figures you provide should cover the whole of 2019/20.</u> Please use whole numbers with no text. If you have a nil entry please enter 0 in the appropriate box and do not leave a blank cell.</p>	0	0	0
<p>B2) If you have not increased the number of packages or placements (i.e. have answered question B1 with 3 zeros), please indicate the main area that you have spent your additional iBCF funding allocation for 2019-20. Hover over this cell to view the comment box for the list of options if the drop-down menu is not visible.</p>	Other		
<p>B3) If you have answered question B2 with 'Other', please specify. Please do not use more than 50 characters.</p>	High fee uplift R&N and Homecare, more activity
