

OBJECTION REPORT – MAYOR’S CYCLING AND WALKING CHALLENGE FUND, BRAMHALL PARK TO A6 – TRAFFIC REGULATION ORDERS

Joint report of the Corporate Director for Place Management & Regeneration and
the Head of Legal, Democratic Governance and Estate & Asset Management

1. INTRODUCTION AND PURPOSE OF REPORT

1.1. This report is to advise the Committee of objections received to the proposed introduction of the following Traffic Regulation Orders (TROs), associated with the Bramhall Park to A6 walking and cycling scheme, and to seek approval for the introduction of some of the Traffic Regulation Orders as advertised.

- ZA/1976 - FIR ROAD, BRAMHALL, ARUNDEL AVENUE & JACKSONS LANE, HAZEL GROVE (PROHIBITION AND LIMITED WAITING) (REVOCATION) ORDER 2020
- ZA/1977 - ASHBOURNE ROAD & OTHER ROADS, HAZEL GROVE (20MPH SPEED LIMIT) ORDER 2020
- ZA/1978 - JACKSONS LANE LAY-BY, HAZEL GROVE (CONTROL PARK ZONE FOR VEHICLES EXCEEDING 5 TONNES) ORDER 2020
- ZA/1979 - NOTICE OF ESTABLISHMENT OF TOUCAN CROSSINGS AT BRIDGE LANE, JACKSONS LANE AND DEAN LANE, HAZEL GROVE
- ZA/1982 - NOTICE OF PROPOSAL TO INSTALL TRAFFIC CALMING ON MILL LANE, HAZEL GROVE

1.2. This report is to ensure that objections to the permanent Traffic Regulation Orders are appropriately considered.

2. BACKGROUND INFORMATION

2.1. The Bramhall Park to A6 walking and cycling scheme was subject to a large-scale public consultation in autumn 2019, having been submitted for funding by the Greater Manchester Mayor’s Cycling and Walking Challenge Fund (MCF).

2.2. The scheme is an approximately 4km long cycle link between Bramhall Park and the former A6 at ‘Simpson’s Corner’ in Hazel Grove. It is part of the Stockport East – West Cycle Route that it is intended will eventually extend from High Lane to Gatley. It will link residential areas in Hazel Grove and Bramhall with Hazel Grove Leisure Centre, Bramhall High School, Bramhall Park and Hazel Grove High School.

2.3. Leaflets were sent to 30,000 properties across Stockport targeting locations in proximity to various walking and cycling proposals. To further encourage involvement in the consultation, 2,145 of the leaflets were accompanied by a letter to properties in closer proximity to the Bramhall Park to A6 scheme.

2.4. Additional methods of communication to direct potential respondents to the scheme information and consultation included road signs at targeted locations, posters on lamp columns and at local amenities in proximity to each scheme, a press release and social media schedule. Key stakeholders were also identified and engaged.

2.5. The results of the consultation were presented at Area Committees in January 2020 and subsequently approved for implementation by the Cabinet Member for Economy & Regeneration, including Legal advertisement of the associated Traffic Regulation Orders.

3. OBJECTIONS, OFFICER COMMENTS AND RECOMMENDATIONS

3.1. The Orders were advertised for a 21-day period, this included letter drops to local properties and Legal Notices being placed on street. The draft Orders were available on the Council website, together with plans and statements of reason for proposing to make the Orders.

3.2. The Legal Notices are included at **Appendix A** with associated drawings.

3.3. Notably Order ZA/1976 was initially advertised in March 2020, this has been repeated in recognition of the impact of Covid-19 restrictions on the advertisement. Responses from the initial advertisement have been included in this report.

3.4. Specific objections and points raised within each response to the advertisements are summarised below, alongside Officer comments.

**ZA/1976 - FIR ROAD, BRAMHALL, ARUNDEL AVENUE & JACKSONS LANE,
HAZEL GROVE (PROHIBITION AND LIMITED WAITING) (REVOCATION)
ORDER 2020**

Objections and Officer Comments

A total of 12 responses were received with reference to the advertised Order, one of which signed for and on behalf of 13 business owners, managers and employees of the Fir Road trading community.

Objection	Officer Comment
<i>General / Wider Scheme</i>	
Waste of tax-payers money and will make no difference to road safety, will increase pollution and will cost a lot to install and maintain over the next 25 years. Does not agree with removal of the trees for cycle lanes nobody will use. Bridge Lane / Jacksons Lane is a nice urban road that will be turned into a third rate industrial area with pink and blue roads, signs & crossing lights. Grant Shapps has voiced concern for the misuse of funds for cycling schemes.	The Order is part of the wider scheme subject to a large-scale public consultation in autumn 2019. The results of the consultation were presented at Area Committees in January 2020, supported by Local Councillors and approved for implementation by the Cabinet Member for Economy & Regeneration, including Legal advertisement of associated Traffic Regulation Orders.
Does not feel like children will use the new cycle path as they would have to cross the road twice to get to school.	This scheme is designed to be fully inclusive, aimed at encouraging alternative forms of travel including walking and cycling by a variety of users. It was designed to relevant standards and recommendations.
Lone leisure / commuter cyclists use the road or footpath but mainly road as it's not busy.	It is supported by a Business Case which demonstrates value for money.
Club cyclists (main users of this route) always use the road and do not use cycle lanes on Bridge Lane, or new cycle lane alongside the A555.	The different coloured hatch used on the plans was to highlight different features of the route, it is not intended to use pink/blue surface finishes – it will be finished in standard highway materials.
Present proposal of segregated cycle way on south side of Jacksons Lane is dangerous and will not be used – passes 17 drives & farm entrance, requires crossing twice to get to school from Arundel Road / Wimpy / Bramhall Moor Lane estates. Children getting lunch at Dorchester Parade will have to cross the road twice. Two toucan crossings is not feasible for cyclists. Cyclists will prefer to use the road than the cycle way. Two toucan crossings will hold up buses getting in and out of school and parents who park in the lay by, slow traffic at school times causing pollution & traffic.	The design of the scheme has been subject to surveys and assessment in respect of connectivity into existing drainage.
Would prefer if the footpaths were wider and were all shared footway/cycleways on both sides of the road. Safer for children, main traffic flow will be maintained, better access to leisure cyclists.	
The removal of 'green space' in the form of a grass verge will further contribute to the now regular flooding of Bramhall Green.	

Fir Road

	<p>The shared cycle way and footpath will be dangerous for all users especially around the start and end of the school day. This proposed cycle way and footpath (Fir Road) appear to be a 'stand-alone' approximately 80m of the proposed MCF Bramhall to A6 cycle path. Sheet 11 of the plan shows a proposed cycle pathway from Bramhall High School to Bridge Lane. This makes a short, shared cycle way and footpath with all its detrimental implications to the businesses and inherent dangers to pedestrians and cyclists on Fir Road completely unnecessary. The loss of 80m at one end of the cycle way cannot be that significant to the overall plan especially when considering the significant impact on all the local businesses.</p>
<p>The 'proposed' layby allowing for the parking of 6 cars, whilst welcome, is an area where cars already park and therefore will not assist in mitigating the loss of parking due to double yellow lines on the east side of Fir Road.</p>	<p>It has been noted that vehicles which park on this section of Fir Road park half on/half off the footway and verge which is inconsiderate and illegal, construction of the layby will formalise the parking on this section.</p>
<p>Widening the northern entrance/exit of Fir Road will increase the speed of the traffic entering Fir Road and hamper the egress of traffic onto Bramhall Lane South.</p>	<p>The junction has been reviewed with regards to turning movements of larger vehicles and the widening is needed to allow a school bus to turn left from Bramhall Lane South into Fir Road without over-running the footway. This causes damage and is to the detriment of the safety of users of that footway. As part of modifying the junction, a widened central island will be introduced to provide a safe refuge for pedestrians when crossing.</p>
<p>The minutes (to March Area Committee) acknowledge a plan to establish one disabled parking bay near the shops on Fir Road. We can only infer from this that Stockport Council are aware that removing so much parking is discriminatory and will adversely affect disabled people from accessing the shops including the essential services of the pharmacy and optician. While this is a welcome development it is in no way sufficient.</p>	<p>This scheme is designed to be fully inclusive.</p> <p>Reference to the potential for a disabled bay on Fir Road was noted.</p>

<p>Due to the current pandemic we, as businesses, are likely to encounter further issues. All appointments and visits with traders on this parade are now subject to longer waiting and appointment times due to the necessary and vital 2 metre physical and social distancing. This prolonging of visits will inevitably cause further strain on existing parking even without the planned loss.</p>	
<p>In this day and age of failing businesses, the last thing to do is make it more difficult.</p>	
<p>The changes will affect the success and probably the viability of the majority of the businesses on Fir Road which is currently a successful and popular shopping and trading community.</p>	
<p>Our clients require parking as near as possible. The businesses provide essential services, reducing their accessibility to the older / disabled population is discriminatory and detrimental to their health and wellbeing.</p>	
<p>The roads leading off Fir Road; Waterloo Road and Brookdale Road, are private roads and if parking is limited people may park on these without realising and cause further neighbourhood unrest.</p>	
<p>There is currently insufficient parking available at Fir Rd and to impose any restrictions would make the situation even worse.</p>	
<p>Extremely concerned about the lack of parking spaces that will be available. Quite often find someone in the space which causes a stress. With lack of parking available this will be impossible and I won't be able to carry any stock from my car.</p>	

Officer Recommendation

In response to the objections received associated with the No Waiting at Any Time on Fir Road, it is recommended this be deleted from the Order and instead bollards be introduced to prevent parking on the foot / cycleway.

ZA/1977 - ASHBOURNE ROAD & OTHER ROADS, HAZEL GROVE (20MPH SPEED LIMIT) ORDER 2020

Objections and Officer Comments

A total of two responses were received with reference to the advertised Order.

Objection	Officer Comment
There is no necessity for these measures on Mill Lane as it is a quiet estate road that does not have any traffic problems at present.	The Order is part of the wider scheme subject to a large-scale public consultation in autumn 2019. The results of the consultation were presented at Area Committees in January 2020, supported by Local Councillors and approved for implementation by the Cabinet Member for Economy & Regeneration, including Legal advertisement of associated Traffic Regulation Orders.
These measures only cause more traffic pollution due to cars braking for the road cushion and then acceleration away from them.	The scheme and associated 20mph speed limit are to provide a safer facility for pedestrians and cyclists. On Mill Lane the speed limit will be supported by vertical traffic calming measures (see ZA/1982), on all other roads '20' roundels will be marked. The traffic calming is in recognition that a 20mph restriction on residential streets needs to be largely self-enforcing with features which do not facilitate high speeds. The vertical traffic calming has been designed and will be implemented to Council Standard Detail specifications, national standards and recommendations.
There is always added noise from vehicles slowing down and accelerating away from the road cushions, especially from Lorries, Vans and Buses.	
The road cushions cause lasting damage to vehicles suspension systems even when going slow over the road cushions.	
I know all the above are real causes for concern for the many years I lived previously around Yew Tree Park Road in Cheadle Hulme.	
This will only work if there are speed bumps as well as drivers will ignore the speed signs.	

Officer Recommendation

It is recommended that the Order be made as advertised.

ZA/1978 - JACKSONS LANE LAY-BY, HAZEL GROVE (CONTROL PARK ZONE FOR VEHICLES EXCEEDING 5 TONNES) ORDER 2020

Objections and Officer Comments

A total of one response was received with reference to the advertised Order.

Objection	Officer Comment
Will be a bus stop near the house which will significantly decrease the value of the property. The stop will also cause distress to the dog due to the increased activity and movement. Also it is difficult enough to get out of the drive due to cyclists but with the bus stop even more so, and potentially dangerous.	The comments are noted to be unrelated to the advertised Order, rather the wider scheme subject to a large-scale public consultation in autumn 2019. The 4.5km long route will provide a safer, off-carriageway link for cyclists and pedestrians along Bridge Lane, Jacksons Lane and Dean Lane. The results of the consultation were presented at Area Committees in January 2020, supported by Local Councillors and approved for implementation by the Cabinet Member for Economy & Regeneration, including Legal advertisement of associated Traffic Regulation Orders. Bus stops are to be relocated to facilitate the scheme, including the provision of crossing points to allow safe crossings by pedestrians and cyclists along the spine of the route. Impact on property value is not a material consideration for evaluation of a Highway scheme while the relocation of bus stops is arranged between the Council and Transport for Greater Manchester to agree appropriate, safe locations. The Council will contact this resident about their concerns and seek to mitigate the impact of the relocated bus stops on local residents.

Officer Recommendation

It is recommended that the Order be made as advertised.

ZA/1979 - NOTICE OF ESTABLISHMENT OF TOUCAN CROSSINGS AT BRIDGE LANE, JACKSONS LANE AND DEAN LANE, HAZEL GROVE

Objections

A total of two responses were received with reference to the Notice of Establishment.

As a keen cyclist, finds the plans badly thought out and planned. Has no issues when travelling easterly and westerly on Dean Lane currently. Would find it frustrating having to slow down to walking pace and stop at every side road, and would probably use the carriageway instead. Travelling down Bridge Lane cycleway at speed, turning into Headlands Road is an accident waiting to happen. Same issue at Bridge Lane, Fiveways on Dean Lane. No provision for cyclists entering Dean Lane / Bridge Lane to travel west from any of the many side roads to the north. Existing carriageways will be narrowed at the Dean Lane / Chester Road junction with the cycleway not being used by most cyclists, the cyclist / motor vehicle distance will be reduced and could cause an accident. The plans will degrade this area of Hazel Grove / Bramhall. The area has had a lot of road improvements and this is another project with massive disruption. Do not agree with the destruction of an established Rookery on Matlock Drive. If the plans go ahead and an accident occurs, the onus is on the Council.

Generally, in favour of the plans. A large oak tree outside the property is a source of huge amounts of debris and the roots are causing damage to the entrance. The root damage could affect the cycleway as well as pose a risk to the cyclists and walkers from the debris. The tree could be removed but at least needs to be trimmed to prevent accidents, damage and debris.

Officer Comments

The comments from the 'keen cyclist' are noted, such cyclists will still be able to use the carriageway however many cyclists who are currently put off riding on a busy A road by traffic levels will have a segregated facility to use adjacent to it. Regarding access to the route from residential areas to the north a number of controlled crossings are proposed to facilitate this. The comment about the rookery will be taken up with Council's Ecology Officer.

The comments about the tree are noted and Officers will be in contact with the resident at the detail design stage.

Petition

Further, a letter was received with reference to the Notice and signed by 201 respondents to register 'objection to the current plans proposed for the walking and cycling scheme along Dean Lane in Hazel Grove'.

The reasons for objection were not specific to the Notice of Establishment, rather the scheme as a whole. The covering email suggests 'many residents had no knowledge of this scheme and have been outraged with Stockport council's lack of or non-existence of information and consultation on a more individual and widely advertised basis'.

Officer Comments

The scheme was subject to a large-scale public consultation in autumn 2019. Leaflets were sent to 30,000 properties across Stockport targeting locations in proximity to various walking and cycling proposals. To further encourage involvement in the consultation, 2,145 were accompanied by a letter to properties in closer proximity to the Bramhall Park to A6 scheme, including along Dean Lane. Additional methods of communication to direct potential respondents to the scheme information and consultation included road signs at targeted locations, posters on lamp columns and at local amenities in proximity to each scheme, a press release and social media schedule. Key stakeholders were also identified.

The results of the consultation were presented at Area Committees in January 2020, supported by Local Councillors and approved for implementation by the Cabinet Member for Economy & Regeneration.

ZA/1982 - NOTICE OF PROPOSAL TO INSTALL TRAFFIC CALMING ON MILL LANE, HAZEL GROVE

Objections

A total of three responses were received with reference to the Notice of Establishment.

It is an unnecessary addition to the area, will cause disruption and is an eyesore. Does not wish to have extra wear and tear on vehicle suspension. Also the cycle lanes will remove a lot of the greenery. Believes the money spent on this could go to support services.

No need for any speed humps as there is hardly any through traffic, will cause noise and people looking at houses when passing through. Previous experience in living on a road with speed humps causes noise during the night with milk floats. If a speed hump is required, then one in the middle of the road should suffice.

Welcomes measures but is concerned some of the speed bumps will restrict the dropped kerb crossing points which are already limited. Asks if dropped kerbs be included on Chatsworth's side roads and when the proposal is going to happen.

Officer Comments

The scheme was subject to a large-scale public consultation in autumn 2019. The results of the consultation were presented at Area Committees in January 2020, supported by Local Councillors and approved for implementation by the Cabinet Member for Economy & Regeneration.

The scheme and associated 20mph speed limit (see ZA/1977) are to provide a safer facility for pedestrians and cyclists. On Mill Lane the speed limit will be supported by vertical traffic calming measures, on all other roads '20' roundels will be marked. The traffic calming is in recognition that a 20mph restriction on residential streets needs to be largely self-enforcing with features which do not facilitate high speeds. The vertical traffic calming has been designed and will be implemented to Council Standard Detail specifications, national standards and recommendations.

Design of traffic calming will take account of existing driveway access points. The request for drop crossings on side roads on the Chatsworth Road estate is in accordance with the objectives of the MCF and will be investigated further for possible inclusion in the scheme.

OTHER COMMENTS

In addition to the specific objections and points raised within each response to the advertisements summarised above, several requests were made for copies of Notices which were subsequently provided, and general enquiries about the scheme answered.

The following objection was received without reference to a specific Notice.

Reduces grass verges on Dean Lane considerably to virtually nothing which will have a detrimental effect on insects and wildlife. Dean Lane is used by walkers but there seems to be little room for the pedestrians. Traffic calming measures seem unnecessary.

Officer Comments

The scheme has been subject to consideration of ecological implications and in particular care has been taken that where trees are to be removed they will be replaced on a two for one basis. A footway will be provided over the full length of the scheme and in addition a number of controlled crossing points provided across Bridge Lane, Jacksons Lane and Dean Lane.

4. FUNDING

4.1. There are no financial implications arising from the recommendations in this report. The costs associated with making the Orders will be met by MCF.

5. LEGAL IMPLICATIONS

5.1. The Council has a statutory duty to ensure that its highways operate safely for the safe passage of all traffic including pedestrians and powers to regulate and restrict traffic to assist in that duty.

6. SUMMARY OF RECOMMENDATIONS

6.1. It is recommended that the Committee note the objections received, and

- ZA/1976 - FIR ROAD, BRAMHALL, ARUNDEL AVENUE & JACKSONS LANE, HAZEL GROVE (PROHIBITION AND LIMITED WAITING) (REVOCATION) ORDER 2020 - In response to the objections received associated with the No Waiting at Any Time on Fir Road, it is recommended this be deleted from the Order and instead bollards be introduced to prevent parking on the foot / cycleway.
- ZA/1977 - ASHBOURNE ROAD & OTHER ROADS, HAZEL GROVE (20MPH SPEED LIMIT) ORDER 2020 - It is recommended that the Order be made as advertised.
- ZA/1978 - JACKSONS LANE LAY-BY, HAZEL GROVE (CONTROL PARK ZONE FOR VEHICLES EXCEEDING 5 TONNES) ORDER 2020 - It is recommended that the Order be made as advertised. Note the Council will seek to mitigate the impact of the relocated bus stops on local residents.
- ZA/1979 - NOTICE OF ESTABLISHMENT OF TOUCAN CROSSINGS AT BRIDGE LANE, JACKSONS LANE AND DEAN LANE, HAZEL GROVE - No recommendation (Notice of Establishment only).
- ZA/1982 - NOTICE OF PROPOSAL TO INSTALL TRAFFIC CALMING ON MILL LANE, HAZEL GROVE - No recommendation (Notice of Establishment only).

6.2. Anyone requiring further information should contact Alex Purrier on 0161 474 2299 or at alex.purrier@stockport.gov.uk.

ZA/1976 - FIR ROAD, BRAMHALL, ARUNDEL AVENUE & JACKSONS LANE, HAZEL GROVE (PROHIBITION AND LIMITED WAITING) (REVOCATION) ORDER 2020

**THE METROPOLITAN BOROUGH COUNCIL OF STOCKPORT (FIR ROAD,
BRAMHALL, ARUNDEL AVENUE & JACKSONS LANE HAZEL GROVE)
(PROHIBITION AND LIMITED WAITING) (REVOCATION) ORDER 2020**

NOTICE IS HEREBY GIVEN that the Metropolitan Borough Council of Stockport proposes to make an Order under the Road Traffic Regulation Act 1984, the Road Traffic Act 1991 and the Traffic Management Act 2004 the effect of which will be to introduce **No Waiting At Any Time** Fir Road, east side, from a point 17 metres north of the northerly kerb line of Waterloo Road for a distance of 48 metres in a northerly direction. Fir Road, east side, from a point 69 metres south of the southerly kerb line of Waterloo Road for a distance of 13 metres in a southerly direction. Arundel Avenue, both sides, from the northerly kerb line of Jacksons Lane for a distance of 20 metres in a northerly direction. Jacksons Lane, north side, from a point 15 metres west of the westerly kerb line of Arundel Avenue for a distance of 30 metres in a easterly direction. **Limited Waiting, 3 hours no return 1 hour** Fir Road, east side, from a point 11.5 metres south of the southerly kerb line of Waterloo Road for a distance of 39 metres in a southerly direction. **Revoke No Waiting At Any Time** Fir Road, east side, from a point 11.5 metres south of the southerly kerb line of Waterloo Road for a distance of 8.5 metres in a southerly direction.

Full details of these proposals are set out in the draft Order which, together with the map and statement of the Council's reasons for proposing to make the Order, may be viewed at the following link <https://www.stockport.gov.uk/proposed-traffic-regulations-in-your-area>. However, if you do not have access to the internet, then please contact Legal at p&h@stockport.gov.uk or on 0161 474 3138 or at Town Hall Stockport SK1 3XE in order to obtain a hard copy.

Any person wishing to object to this proposed Order should write, specifying their grounds for objection, to the undersigned (or by email to p&h@stockport.gov.uk) on or before 17 September 2020 quoting reference ZA/1976.

ZA/1979 - NOTICE OF ESTABLISHMENT OF TOUCAN CROSSINGS AT BRIDGE LANE,
JACKSONS LANE AND DEAN LANE, HAZEL GROVE

STOCKPORT METROPOLITAN BOROUGH COUNCIL
ROAD TRAFFIC REGULATION ACT 1984
NOTICE OF ESTABLISHMENT OF TOUCAN CROSSINGS AT BRIDGE LANE,
JACKSONS LANE AND DEAN LANE, HAZEL GROVE

NOTICE IS HEREBY GIVEN that the Stockport Metropolitan Borough Council, in exercise of its powers under section 23 of the Road Traffic Regulation Act 1984, proposes to establish a Toucan Crossings at Bridge Lane, from a point 16 metres east of the easterly kerb line of Valley Road. Bridge Lane, from a point 23 metres west of the westerly kerb line of Headlands Road. Jacksons Lane, from a point 232 metres east of the easterly kerb line of Wallbank Road. Jacksons Lane, from a point 30 metres north west of the north westerly kerb line of the westerly access of Hazel Grove High School. Jacksons Lane, from a point 42 metres south east of the south easterly kerb line of the easterly access of Hazel Grove High School. Jacksons Lane, from a point 17 metres east of the easterly kerb line of Arundel Avenue. Dean Lane, from a point 13 metres west of the westerly kerb line of Hartington Drive.

Full details of these proposals are set out in the draft Order which, together with the map and statement of the Council's reasons for proposing to make the Order, may be viewed at the following link <https://www.stockport.gov.uk/proposed-traffic-regulations-in-your-area>. However, if you do not have access to the internet, then please contact Legal at p&h@stockport.gov.uk or on 0161 474 3138 or at Town Hall, Stockport SK1 3XE in order to obtain a hard copy.

Any person wishing to make observations in respect of this proposal should write to the undersigned before 17 September 2020 quoting reference number ZA/1979.
