

Summary of Changes for Section 19 Flood Investigation Report Version I

Mott MacDonald

December 2020

Feedback from United Utilities (UU) and Environment Agency (EA) was received and the consultant considered this and amended the report to the latest version being Version I. There are minor formatting changes throughout the document.

This note is to highlight key changes from version H

Responsibilities:

1.4.2 : Rewritten to reflect EA's responsibilities

1.4.3: Rewritten to reflect UU's responsibilities

1.4.6.2: Added notes about EA involvement with Critical Ordinary Watercourses and a section advising a Government website link for landowners about owning watercourses

June 16 Recommendations:

Table 4.2 (8.2) Myrtle Road sewer was reviewed by UU and amended highlight yellow to green

Table 4.2 (9.1) Ladybrook river was reviewed by EA and amended highlight red to yellow

Table 4.2 (9.2) Hazel Grove Brook river was reviewed by EA and amended highlight red to yellow

Table 4.2 (9.4) Poise Brook river was reviewed by EA and amended highlight red to yellow

Discussion of findings:

5.3: In relation to EA actions post 2016 additional notes added to explain that Authorities are not duty bound to carry out works and explains mechanism to seek funding that are reviewed and in particular if criteria are not met.
