Summary:

This report presents the various aspects of the flood events in July 2019 when areas across Northern England were hit by a low-pressure weather system and experienced periods of intense and significant rainfall. The Metropolitan Borough of Stockport was heavily impacted by the storms, which affected properties right across the borough and resulted in widespread flooding and transport disruption. This report also incorporates the Final Independent Section 19 Investigation Report in accordance with the Flood & Water Management Act (FWMA) 2010 on the investigation into the flooding events undertaken independently by Mott MacDonald Consulting Engineers.
