

Description of planned project

We are looking to establish a website for Stockport Neighbourhood Watch Association which will help us in our objective of building a safer, stronger and more connected community.

It will have:

- Information on local crime statistics
- Advice on crime prevention
- Guidance on reporting crime
- Information on finding your local Neighbourhood Watch scheme or on setting up one in your area.
- Details as to what Neighbourhood Watch is all about
- Police contacts
- Links to Social Media
- Details of relevant local events, services and tradespeople
