#### **(ii) Public Question Time**

Members of the public were invited to put questions to the Chair on any matters in the powers or duties of the Area Committee, subject to the exclusions set out within the Code of Practice.

One public question was submitted in relation to the condition of the surfacing on Cambridge Drive, Woodley and other footways and carriageways in the immediate vicinity.

In response it was stated that a response had already been sent to the questioner confirming that a review would be undertaken of Balliol Close, Woodley with this being included in the planned maintenance programme at the earliest opportunity. It was further stated that highway gullies were visited as part of a routine programme and that ad hoc requests for clearance were not normally undertaken. With regard to Cambridge Drive specifically, it was stated that it was not possible to resurface every road in the borough, and that this work was prioritised on a needs basis, however a reassessment of the condition of the carriageway had been requested prior to the end of the financial year. However, seven reactive repairs had been carried out in the area and the annual inspection was due in December where any actionable defects in the carriageway would be picked up.
