PLAN

The MaintenanceStore
These 2 containers are being used for secure storage of essential maintenance equipment including tractor and tools. The covered area between to keep hay dry. They will be replaced by a single more appropriate agricultural building that will be the subject of a later application once the requirements are confirmed upon completion of The Garden House and The Store.

GROUND PLAN

The Store
Refer to drawing 32 for location and Heritage Statement for location and provenance
The Store is proposed to be reconstructed in style in the original location based on plan and pictorial evidence using the stone on site from its demolition, sometime in the 1930's.
Materials Comprise natural stone from saved material on site brought to courses and laid in lime mortar under a natural blue slate roof. Doors in natural wood joinery with stain preservative finish. Roof light conservation style.
The projected use, as in the original Outline Proposal January 2015, is for demonstrations of forge work and Boddging. This may vary dependant on availability; though in any case it will involve local and or historic crafts.
