#### **Summary:**

This report provides an update on the final draft of the refreshed Stockport Active Communities Strategy. It gives the rationale and background context for an Active Communities Strategy in Stockport and outlines the maintenance of a whole systems methodology, that is aligned to new national, Greater Manchester and Stockport priorities.

The action plan to implement the identified priority actions is currently being developed & will be finalised once the strategy has been launched. Implementation responsibility will be held by the ONE Stockport Active Communities Partnership.

The engagement report outlines the process undertaken and the key feedback received so far in the development of the strategy refresh.

#### **Comments/Views of the Cabinet Member: (c)**

The ONE Stockport Active Communities Strategy 2022-2030 will continue to build on the positive impact that the existing strategy, launched in 2019, has had for residents across Stockport – both before and during the Covid-19 pandemic.

It will maintain a whole systems approach, recognising the complexity of influences that have resulted in populations becoming less active and more sedentary since the middle of the last century.

It also recognises that re-establishing movement and physical activity into our daily lives is more challenging for some individuals and that, in line with Sir Michael Marmot's work on inequalities, proportionate targeted support within a universal offer is likely to have the greatest impact.

#### **Recommendation(s) of Cabinet Member: (d)**

That Cabinet endorses the continuation of a whole systems methodology for the ONE Stockport Active Communities Strategy 2022-2030 to support the 'Healthy and Happy Stockport' and 'A Flourishing and Creative Stockport' priorities within the ONE Stockport Borough Plan
