

Joint Forward Plan – Summary

**Greater
Manchester
Integrated Care
Partnership**

Joint Forward Plan

- National guidance states that each ICB must publish a five-year Joint Forward Plan setting out how they propose to exercise their functions, which must be shared with NHSE by 30th June 2023.
- Whilst legal responsibility for the JFP lies with the ICB for the elements under their remit, systems have also been encouraged to use the JFP to develop a shared delivery plan for the integrated care partnership strategy. This is the approach we are taking in Greater Manchester
- Guidance from NHSE describes that the plans should be:
 - Fully aligned with the ambitions of the wider partnership
 - Build on local strategies and plans and reflect universal NHS commitments
 - Delivery-focused
- Whilst the JFP will cover 5 years, it will necessarily be more detailed in terms of the first two years.

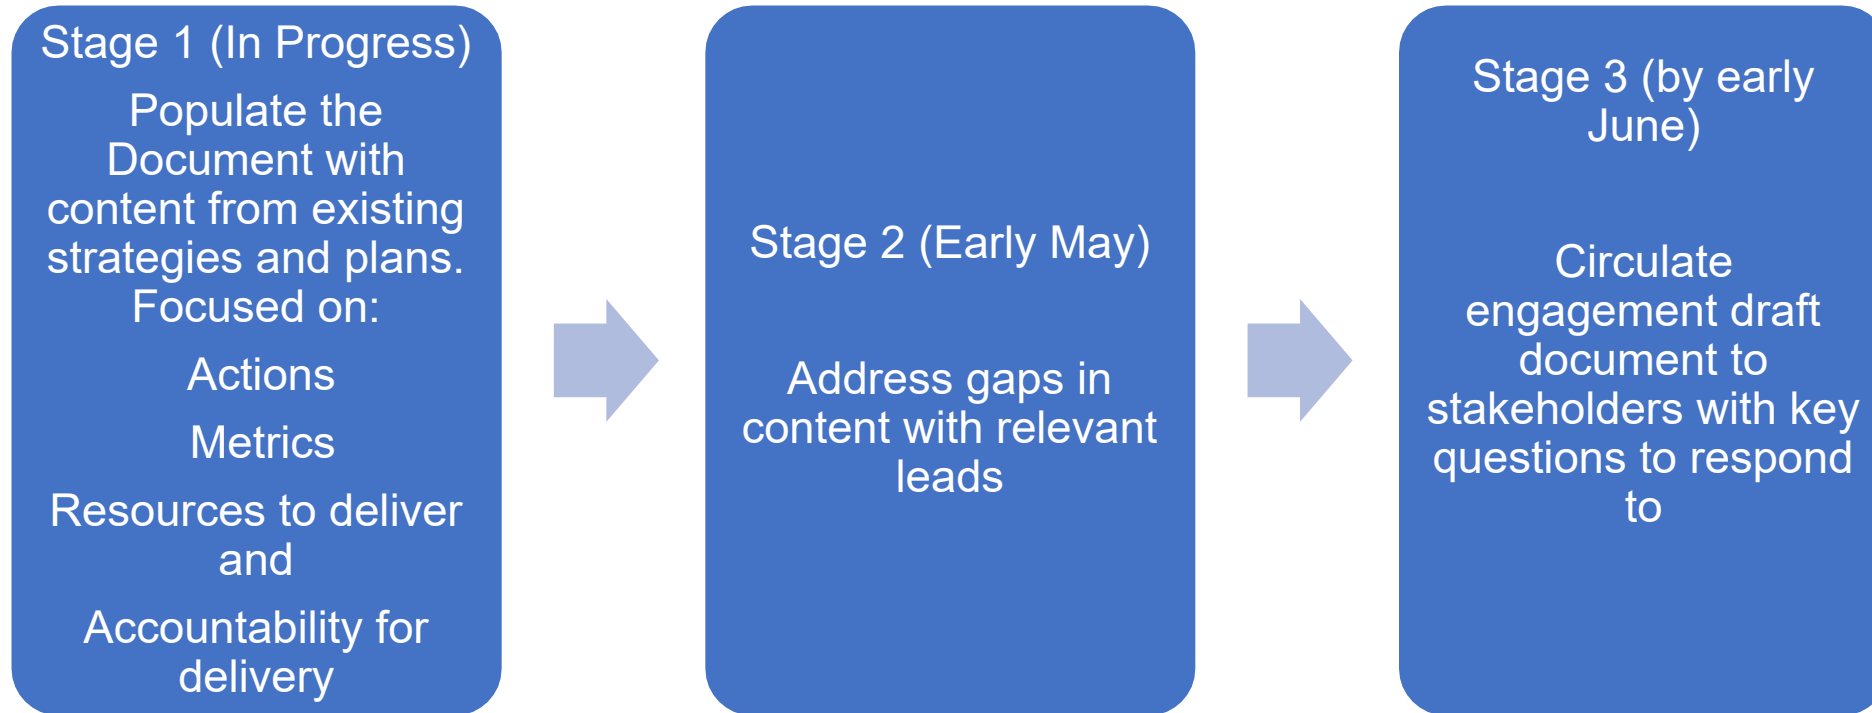

Update on Process

- The engagement draft is built from:
 - ICP Strategy
 - 23/24 Operational Plan
 - PWC and Carnall Farrar reports
 - Range of current system plans – including Locality Plans
 - Input from System Leads and Workshops
- As such, the plan reflects work in train within the system and being overseen by the governance. This is strengthened by detail on how we will measure delivery and accountability arrangements.
- The JFP is structured on the key actions to deliver the six ICP Strategy missions. We have set out proposed delivery and system leadership for each of the missions
- It is recognised that we need to keep developing the plan – particularly in respect of system financial sustainability. The plan sets out next steps and these are summarised in these slides.

Our Missions – Overview

Our strategy missions

Strengthen our communities

We will help people, families and communities feel more confident in managing their own health

Our strategy missions

Help people to stay well and detect illness earlier

We will work together to prevent illness and reduce risk and inequalities

Our strategy missions

Help people get into, and stay in, good work

We will expand and support access to good work, employment and employee wellbeing

Our strategy missions

Recover core health and care services

We will continue to improve access to high quality services and reduce long waits

Our strategy missions

Support our workforce and carers at home

We will ensure we have a sustainable, supported workforce including those caring at home

Our strategy missions

Achieve financial sustainability

We will manage public money well to achieve our objectives

Proposed Accountability Arrangements

- Delivery Leadership – the board/organisation accountable for driving change and improvement in the relevant part of the system. This recognises that the key responsibility for bringing together and driving delivery will sit with Locality Boards, providers and provider collaboratives
- System Leadership – This recognises the board/group accountable for creating the system-wide conditions, frameworks, and standards to enable delivery

Developing Medium Term Financial Sustainability Plan	Development of three-year financial plan

Next Steps in Implementing the Plan

- Whilst the 30th June NHS England deadline is an important milestone, our work on delivery planning cannot stop there
- We will need to keep the momentum on our system conversations to make those choices that secure our long-term sustainability. NHS England's guidance describes that the plan should be continually reviewed and formally updated on at least an annual basis
- This means that we will continue to develop the JFP up to and beyond 30th June
- The steps we will focus on confirming our approach to long-term financial sustainability. These are:
 - Setting out in detail the phasing of all the programmes set out in this plan – across years 1,2 and 3 of the plan and prioritising those initiatives that will have the greatest impact
 - Ensure that all elements of the plan are costed in line with our medium-term financial plans and ensure we are maximising efficiency across the range of our activity
 - Continue to strengthen the delivery metrics and accountability arrangements
 - Quantify the population health potential of a fundamental shift in demand and a greater emphasis on early intervention and prevention. This will include modelling across all care settings. This needs to extend across all points of delivery
 - Drawing on this, confirm the process to undertake the population level segmentation and analysis for the longer-term transformation
 - Informed by this, position the key choices the GM system will need to make to deliver on long-term financial sustainability and continue to improve health outcomes

Your Feedback on the Draft Plan

- What are your views on the proposed accountability arrangements for the missions – in particular, the distinction between delivery and system leadership
- What are your thoughts on the key actions? Are there any areas of work that are missing or that we need to place greater emphasis on?
- Are the metrics selected for the actions the right ones? Are there any that you would change or add?
- Any other views on the document?
