

ONE Stockport Mental Health and Wellbeing Strategy 2023 - 2030

Report To (Meeting):	ONE Stockport Health and Care Board		
Report From (Board Lead)	Clare Parker, Executive Director of Nursing, Healthcare Professionals & Quality Governance & Deputy Chief Executive, Pennine Care NHS Foundation Trust Jilla Allen-Burgess, Director of Public Health, Stockport MBC		
Report From (Author):	Judith Strobl, Consultant in Public Health, Stockport MBC		
Date:	26 July 2023	Agenda Item No:	9 (i)
Previously Considered by:	ONE Stockport Health and Care Board in February 2023		

Purpose of the report:

To achieve sign-off of the ONE Stockport Mental Health and Wellbeing Strategy.

Key points (Executive Summary):

- The strategy aims to improve mental health and wellbeing for the residents of Stockport. It has been developed in response to the need identified in the Borough Plan, and following extensive engagement work during 2022.
- The engagement on our draft strategy framework involved several specific workshops with partners from voluntary, community, and faith sector enterprises (VCFSE), as well as the public sector, a survey of over 1,200 people, and many more meetings with different groups.
- The document brings together key priorities covering the promotion of wellbeing and prevention of mental health problems, through to transforming and improving our local mental health services. The prevention potential is considerable, and the need for compassionate, timely and effective support for those already affected by mental health challenges is no less important.
- This is one of our first and major jointly agreed strategies, in an area which needs all sectors to play their part – from the health and care sector to voluntary and community sector as well as businesses and workplaces, etc.
- Under five major ambitions, the strategy thus identifies immediate actions as well as priorities for further actions, spanning a wide range of delivery partners.
- The strategy is by necessity high level, but it provides the framework for detailed delivery planning to take place within partnership groups. Delivery plans will be developed in partnership, including lived experience, and in an accompanying paper on assurance and delivery we set out the reimagined structures which will allow us to effectively do this.
- Following February Locality Board, as well as Adult Social Care and Health Scrutiny Committee, and Health and Wellbeing Board, we have revised the strategy by bringing in more detail of the emerging delivery plan under each

ambition (including outputs, outcomes, and partners), strengthening and simplifying language and style to help engage partners and hearts and minds, and identify high-level ultimate outcomes and measures, as well as additional intermediate measures.

Recommendation:

The Board are asked to:

- Agree the strategy plus accompanying summary document.

Decision	x	Discuss/Direction		Information/Assurance	
-----------------	----------	--------------------------	--	------------------------------	--

Aims (please indicate x)

Which integrated care aim(s) is / are supported by this report:	People are happier and healthier and inequalities are reduced	X
	There are safe, high-quality services which make best use of the Stockport pound	X
	Everyone takes responsibility for their health with the right support	X
	We support local social and economic development together	x
