

DISPERAL POLICY

Our dispersal policy in place has crowd barriers preventing the customers from gaining access towards the hotel, leaving from our side entrance.

There are SIA registered door team to supervise this is done with minimum noise and fuss.

Lollipops are given out to customers when leaving the venue, which in turn keeps chatting down to a bare minimum.

Once the bar shuts, the music is turned off so when people are leaving the venue there will be zero music coming from the bar.

We have a staff on the door to keep people moving and away from the bar.

The front terrace (opposite the hotel) is closed from 10.30pm, and no drinks allowed outside. Meaning smokers are coming in quicker.

We have signs in place which read *When leaving Bask please be quiet and respectful of our neighbours.*
