

Bask has become synonymous with the matchday experience of a number of County fans since our promotion back to the football league. Supporters, staff and players alike have enjoyed post-match celebrations at the bar during the 22/23 season, and we have a strong relationship with Benji, Gareth and everyone associated with the bar, with the former being a longstanding and well regarded member of our fan base.

As we as a club continue to grow we are pleased to see similar growth in the town and borough of Stockport, and view bask at being at the forefront of the ever improving night time economy in the area. It is particularly pleasing to see a diverse and multipurpose venue prospering in a key location of regeneration in the town.

Tom Mahon, Chief Operating Officer, Stockport County FC

Hope that's ok, if you need me to beef it out let me know.

Good luck,

Tom
