# The context for this piece of work

- The Borough Plan was developed in partnership with organisations across Stockport and was shaped by the voices of our communities and residents.
- The core pillars of the plan form the foundation of all our partnership strategies and delivery plans which include our Council Plan, Economic Plan and One Health and Care Plan.
- This work has been incredibly successful; we are making significant progress, but we know there is more work to do
- We want to take the “One Future” element of the Borough Plan to the next level.
- This is the next phase of our borough plan, which is future focused on change over the long term

*Delivering 5 big things together*

# Why One Future?

- We have set out '5 Big Things' which we will use as our stepping-stones for the direction of Stockport's future. These 5 big things we believe will help improve well-being for our residents in 5 key areas.
- These 5 big things will make Stockport even better, and the best place in the UK to live happy and healthy lives
- These 5 things do not cover all our activity across the borough, but they are things identified which, if we achieve, will have a significant long-term impact and have amplifying effects across many other areas.
- They are also things which demonstrate why Stockport has a 'recipe' for success and will serve to make Stockport stand out as one of the best places in the country.
- This should be seen as the start of our conversation around what will be an exciting piece of work for the borough over the next 10-15 years
- It is not everything to everyone – this means that this is not a whole community plan, it is not a duplicate of other work, plans or strategies

## Clean, Green Transport

## CLEAN, GREEN TRANSPORT

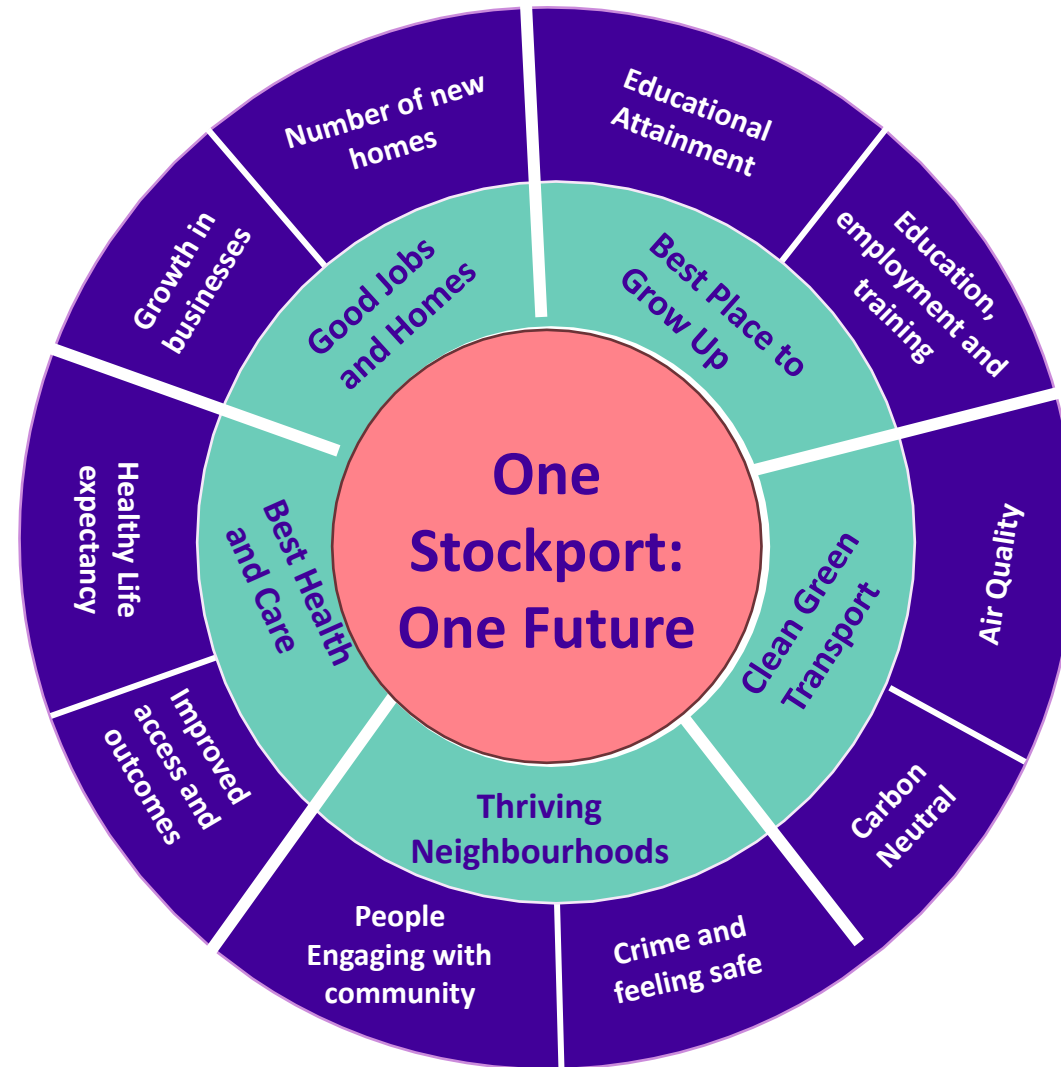

The ambitions for this big thing might be as follows...

1. Bringing the Metrolink to Stockport, providing residents with another fast and efficient public transportation option.
2. Facilitating a zero-emission bus network which connects all our neighbourhoods, including the introduction of the Bee network across our Borough.
3. Securing further national investment in Stockport Railway Station to maintain its status as one of the best-connected stations in the North.

What are your thoughts? Further suggestions?

# The impact we will have

These are the key areas where we want to improve our performance to be the best we can be. We will do this with our key partners in each area

**ONESTOCKPORT**  
**ONEFUTURE**

*Delivering 5 big things together*

# Engagement on One Stockport, One Future

- It will be developed in collaboration
- Over November 2023 – January 2024 we will be having two- way conversations and dialogue with key partners and stakeholders
- This will shape the plan before a March 2024 launch

# Prompt questions:

- What are your thoughts and feedback?
- What are the key areas we need to focus on?
- Do you think there is anything missing?

**How can you as area committees support the achievements of these ambitions?**
