

ONE STOCKPORT – ONE FUTURE – 5 BIG THINGS

ONE HEART

ONE HOME

ONE FUTURE

Why One Future?

- We identified the '5 Big Things' that will be our stepping-stones for the direction of Stockport's future.
- These 5 big things, we believe, will help improve well-being for our residents, making Stockport the best place in the UK to live happy and healthy lives
- They will have a significant long-term impact and will have amplifying effects across many other areas.
- They are also things which demonstrate why Stockport has a 'recipe' for success and will serve to make Stockport stand out as one of the best places in the country.
- We are now moving the conversation forward setting out the journey over the next 10-15 years
- It is not everything to everyone – this means that this not a whole community plan, it is not a duplicate of other work, plans or strategies

SINCE WE LAST MET: SHAPING ONE STOCKPORT, ONE FUTURE

- Between November 2023 – January 2024 we held two- way conversations and dialogue with key partners and stakeholders
- Meeting with over 30 forums including public sector stakeholders, VCSFE, businesses and members
- We heard lots of support and enthusiasm for a shared long-term vision for Stockport
- We also heard great ideas about the types of things that were important to local people and businesses to achieve our Five Big things.

WHAT WE HEARD – OVERALL SUMMARY

- People were **really positive and excited** about One Future. They **welcomed the development of a clear long term strategic vision** and agreed it was important that it was **grounded in tangible actions, joined up working and collective transformation** that would make a difference for local people.
- People felt that **the overall vision clearly shows how ‘everything is linked together’** and demonstrates why positive joined up action is essential. This was an area people wanted us to develop more;
- People could see that a **clear focus on prevention runs through all five big things** and that the ‘five big things’ combined will act as ‘vehicles’ to improve outcomes for all residents.
- It was felt that **greater emphasis should be placed on ‘fair and inclusive’ and the ‘root causes’ of inequality**, in response to the increasing diversity within Stockport’s population.
- There was a conversation about whether One Future is a ‘plan’ and people felt it was **important to understand how we would deliver the five big things**.
