

## Neighbourhoods and Prevention – Focus on Connected Communities

<b>Report To (Meeting):</b>	ONE Stockport Health and Care Board		
<b>Report From (Board Lead)</b>	Heidi Shaw – Director, Family Help and Integration, Stockport Family, Stockport MBC		
<b>Report From (Author):</b>	Carolyn Anderson – Children’s Transformation Lead, Programme Lead Neighbourhoods and Prevention, Stockport MBC		
<b>Date:</b>	24 <sup>th</sup> April 2024	<b>Agenda Item No:</b>	12
<b>Previously Considered by:</b>	Neighbourhood and Prevention Senior Responsible Officers		

### **Purpose of the report:**

The Partnership have received information and regular updates on the development and progress of the Neighbourhood and Prevention Programme. The last report brought a more focussed update on progress and achievements delivered through one of the pillars - One Neighbourhood Approach. This report therefore is bringing a more focused update on another one of the pillars – Connected Communities as well as an overview of resident voice into the programme.

This work is integral to the delivery of our borough plan, One Stockport, One Future and the One Health and Care Plan.

### **Key points (Executive Summary):**

The ambition for the Neighbourhoods and Prevention programme is to bring together services, organisations and groups in neighbourhoods.

It is about both people and place:

- Creating vibrant, clean and safe places where people can socialise, make friends, and access a range of culture, sport and leisure activities.
- Joining up public services, working together alongside local people as a single team.
- Making it easier for people to get help at an earlier stage – reducing the need for crisis interventions.
- Working with the Voluntary, Community, Faith and Social Enterprise (VCFSE) sector to enable communities to use their knowledge, skills and assets.
- Reducing inequalities and ensuring every neighbourhood can thrive.

Towards the achievement of the above, the Connected Communities pillar has the ambition of supporting community led system enabled places where people and families get the support they need.

This would include more effective and timely support from a connected system which prevents those needs from escalating and needing more specialist services. It is essential

that this builds on what is strong in our communities, enabling and working with people towards local solutions.

**Delivered through:**

- **Family Hubs** – A place to test and learn, scale and spread the approach to improving access, connection and relationships
- **Communities First** – Formalising team around the place and VCFSE investment
- **Anti-Poverty** – Mapping the offer towards a coordinated approach
- **Multiple Disadvantage** – Design a model to ensure cohesive offer
- **Equality, Diversity & Inclusion** – Embedding across our neighbourhood work
- **Right Care Right Person** - Social issues pathway in progress

As a result of the work taking place, you will see by March 2025:

- Seven Teams around the Place established to coordinate networks in each neighbourhood
- Seven Family Hub Networks established in neighbourhoods across the borough
- A model to bring an offer of support for residents facing multiple disadvantage
- A social issues pathway in place to ensure people get the right care in the right place at the right time (Right Care, Right Person)

**Recommendation:**

The Board are asked to:

- Note the report and progress made.
- Support the approach and consider the implications/resource offer from partners
- Provide opportunity for partners to review and discuss and offer contributions to next steps.

<b>Decision</b>		<b>Discuss/Direction</b>	<b>x</b>	<b>Information/Assurance</b>	<b>x</b>
