

Stockport CAN Seed Fund Application

Application number 7d344097

Group name	Love Heaton Norris
Group description	Promoting the well-being of the residents and working together with locals of all ages and abilities (regardless of belief, political affiliation or ability). Encouraging locals to get involved in improving the area whilst learning about the environment and the impact green spaces can have.
Funding requested	£852
Amount requested per ward	£213 from Heaton North £213 from Heaton South £213 from Reddish North £213 from Reddish South
Proposal details	<p>We are fortunate to have 3 new raised self-watering planters & now need to fill with lots of compost and plants. This will result in the wheelchair members and locals, engaging with the planting and maintenance of the beds in the future, as they do not need to be at ground level to work. The purchase of specific biodiverse plants will encourage the wildlife, butterflies etc to shelter here and in doing so bring joy to the many visitors of the garden who can use the new bench at their leisure.</p> <p>100 pyracantha £160 50 holly £105 100 hawthorn £88 120 mixed hedging decorative £192 peat free compost £150 delivery. £15</p> <p>TOTAL. £710 VAT £142</p> <p>GRAND TOTAL £852</p>
How will proposal tackle climate change and / or increase biodiversity	Local residents, including Stockport Progress & Recovery Centre members - adults with learning difficulties, are regular volunteers who all help out with gardening and weeding jobs. Also, the 3 raised planters, recently purchased, so that disabled wheelchair users can be involved. Funding for 800ltr of compost and plants will give purpose and meaning for the volunteers. The result of many pretty plants and insects will encourage visitors whose mood will be enhanced in this quiet seating area.
How many people will benefit from proposal	100
Who will benefit from proposal	Local residents of all ages will benefit as they will be able to enjoy being outdoors and in an ecofriendly environment. They will also

be uplifted, surrounded by the flora & fauna in our Community Garden which is in the town centre, on a brownfield site. Local wildlife will also benefit with the new biodiversity plants. People will also feel restful as the area is surprisingly quiet.

Additional information

The CAN Team have received a planting plan that supports local biodiversity.

The yellow lines below indicate where the applicant will be planting native British hedges.
