

Funding our swimming pools and ageing leisure estate

Labour Amendment

This council meeting notes:

- **Despite the recent business report speaking of investment needed across the estate, there was no mention of the Grand Central estate requiring investment**
- **The first reference of this investment appears as 1 line remark, in a passage on a report in the Communities and Housing committee**
- **The cabinet member for finance advised that options were being worked through to look at solutions for this investment**
- **The original motion shows no sign that options re being worked through and the administration have passed the buck**
- **That despite grand central being the only swimming offer to the north of the borough, there has been a 20 million pound investment in leisure facilities servicing the South of the borough already served by Romiley and Hazel Grove.**
- **The administration governs the entire borough of Stockport, not just the wards in which it has councillors**
- **The last major investment into Grand Central was under a Labour administration in 2017, where £2.8m of funding was secured into improving this vital resource**

This council meeting resolves to call on the ~~new government to provide funds~~ ~~administration to work with the new government~~ to invest in our town centre swimming pools at Grand Central, and to do whatever is needed and to ensure this vital resource is not discarded to make way for new houses or offices.

Moved by: Councillor Christine Carrigan

Seconded by: Councillor Rachel Wise

Labour Amendment (clean)

This council meeting notes:

- **Despite the recent business report speaking of investment needed across the estate, there was no mention of the Grand Central estate requiring investment**
- **The first reference of this investment appears as 1 line remark, in a passage on a report in the Communities and Housing committee**
- **The cabinet member for finance advised that options were being worked through to look at solutions for this investment**
- **The original motion shows no sign that options re being worked through and the administration have passed the buck**
- **That despite grand central being the only swimming offer to the north of the borough, there has been a 20 million pound investment in leisure facilities servicing the South of the borough already served by Romiley and Hazel Grove.**
- **The administration governs the entire borough of Stockport, not just the wards in which it has councillors**
- **The last major investment into Grand Central was under a Labour administration in 2017, where £2.8m of funding was secured into improving this vital resource**

This council meeting resolves to call on the administration to work with the new government to invest in our town centre swimming pools at Grand Central, and to do whatever is needed and to ensure this vital resource is not discarded to make way for new houses or offices.
