

Removal of the two-child benefits cap

Labour Amendment

This council meeting recognises that Stockport stands among the most unequal boroughs in the UK, where the life chances and outcomes of our residents are too often dictated by the postcode they are born into.

This council meeting resolves to call on the new government to scrap the two-child benefits cap with immediate effect, to help alleviate poverty in our borough.

Furthermore, this council commits to ensuring that every decision made within its jurisdiction contributes to diminishing socio-economic disparities across the borough. Our goal is to diminish the prevalence and impact of poverty, and to guarantee that all our children receive the optimal start in life.

Moved by: Councillor Jon Byrne

Seconded by: Councillor Claire Vibert

Labour amendment (clean)

This council meeting recognises that Stockport stands among the most unequal boroughs in the UK, where the life chances and outcomes of our residents are too often dictated by the postcode they are born into.

This council meeting resolves to call on the new government to scrap the two-child benefits cap with immediate effect, to help alleviate poverty in our borough.

Furthermore, this council commits to ensuring that every decision made within its jurisdiction contributes to diminishing socio-economic disparities across the borough.
