

Neighbourhoods and Prevention – Focus One Neighbourhood Approach

Report To (Meeting):	ONE Stockport Health and Care Board		
Report From (Board Lead)	Kathryn Rees – Corporate Director Corporate Support Services, Stockport MBC		
Report From (Author):	Holly Rae – Assistant Director, Strategy and Transformation, Stockport MBC		
Date:	28 August 2024	Agenda Item No:	10
Previously Considered by:	Not applicable		

Purpose of the report:

This report provides an update on the One Stockport Local - Neighbourhoods and Prevention programme since the last update in April 2024. There has been significant progress across the programme with a number of key elements recently launched or preparing for imminent launch. For ongoing elements of the programme, we have continued to refine and integrate these practices within our neighbourhood model. These are outlined in section three of this report.

Specifically, this report is to bring an update on activity and impact from the One Neighbourhoods Approach pillar and describe next steps on how this is enabling the development and embedding of neighbourhood working in Stockport.

This work is integral to the delivery of our borough plan, One Stockport, One Future and the One Health and Care Plan.

Key points (Executive Summary):

The ambition for the Neighbourhoods and Prevention programme is to bring together services, organisations and groups in neighbourhoods.

It is about both people and place:

- Creating vibrant, clean and safe places where people can socialise, make friends, and access a range of culture, sport and leisure activities
- Joining up public services, working together alongside local people as a single team.
- Making it easier for people to get help at an earlier stage – reducing the need for crisis interventions.
- Working with the Voluntary, Community, Faith and Social Enterprise (VCFSE) sector to enable communities to use their knowledge, skills and assets.
- Reducing inequalities and ensuring every neighbourhood can thrive.

Towards the achievement of the above, the One Neighbourhood Approach pillar has the ambition of providing the enablers (or wiring) which will ensure the building blocks and structures are in place to achieve our ambitions in neighbourhoods. It focusses on cross cutting priorities and includes the following workstreams:

- **One Stockport Local Offer:** The One Stockport Local offer brings together all of the information, advice and support that our residents and partnership wide workforce can expect to see in our neighbourhoods.
- **Workforce and Culture:** This workstream focusses on codesigning the One Stockport Local Workforce plan, which will sit as part of individual organisational workforce strategies and plans, and is focussed on building on the great things taking place already across partners. Providing learning opportunities for our partnership workforce, at neighbourhood level, to improve our knowledge of communities and create more opportunities for collaboration. One of the ways in which we will achieve this is through the One Stockport Local Neighbourhood Induction.
- **Data, Intelligence and Reporting:** This workstream focusses on delivering One Stockport Local neighbourhood profiles and measuring the impact of One Stockport Local.
- **Citizen Access and Prevention:** is delivering the One Stockport Local Directory and Stockport Council website redesign.
- **Communication and Engagement:** is developing our One Stockport Local brand alongside a Programme wide Communications and Engagement Plan.
- **Shared Digital Infrastructure:** is developing our Shared Digital Spaces and Shared Care Plans.

Significant progress has been made in these workstreams as is detailed in the report. Of particular note: -

- We have worked as a partnership to identify the core information, advice and service offers which are important for and most effective within neighbourhoods. This forms our One Stockport Local offer.
- We have developed neighbourhood profiles for example demographic information, physical assets, deprivation and anti-poverty data.
- A publicly available version of the One Stockport Local Directory has now launched. It brings together local support and things to do in the community to make it easier for people to help themselves, their families, and those they care for.

Next steps include:

- Launch of the next version of Neighbourhood Profiles and directory (from September onwards);
- Roll out of neighbourhood coordination model – which act as a catalyst for the wider One Neighbourhood Approach and One Stockport Local programme;
- Take this approach through organisational and partnership governance forums – this includes an update to Area Committees in September to update elected members and outline how we will work together with them;
- Communicate with partners and colleagues alongside workforce development to support culture change towards system wide neighbourhood working.
- The launch of regular Neighbourhood Network meetings in October and November 2024.

Recommendation:

It is recommended that colleagues note the achievements and progress outlined in this report and provide comment and feedback on the future priorities described.

Decision		Discuss/Direction	x	Information/Assurance	x
-----------------	--	--------------------------	----------	------------------------------	----------

Aims (please indicate x)

Which integrated care aim(s) is / are supported by this report:	People are happier and healthier and inequalities are reduced.	x
	There are safe, high-quality services which make best use of the Stockport pound.	x
	Everyone takes responsibility for their health with the right support.	x
	We support local social and economic development together.	x
