

Stockport Age-Friendly Action Plan – Draft for Engagement

Report To (Meeting):	ONE Stockport Health and Care Board		
Report From (Executive Lead)	Sarah Dillon, Director of Adult Social Care, Stockport MBC		
Report From (Author):	Dr Judith Strobl, Consultant in Public Health, Stockport MBC		
Date:	30 October 2024	Agenda Item No:	11
Previously Considered by:	CLT		

Purpose of the report:

- To share the draft Age-Friendly Action Plan for wider engagement with partners and residents.

Key points (Executive Summary):

- Stockport’s population is already older than others in Greater Manchester and continues to age. For some years, partner organisations have worked together on the Age-Friendly Partnership (formerly ‘Board’) towards an age-friendly Stockport. More work is needed, and the new Greater Manchester [Age-Friendly Strategy](#) provides an impetus for us to develop a new Action Plan for Stockport, aligned to the Greater Manchester strategy, to further our ambition of an age-friendly borough.
- In this Age-Friendly Action Plan, the Stockport Age-Friendly Partnership is building on the strong local communities and services who will work together to lead the next steps, so all our residents can age well. This draft Action Plan uses the World Health Organization framework of an age-friendly place to identify areas of work we need to undertake and influence so that social, physical, and service environments become more age-friendly, and meet the health and wellbeing needs of the ageing population.
- We already launched the engagement phase for the draft Action Plan on 1 October, the International Day of Older Persons (until 15 December).
- Engagement link to view/download the plan and to contribute: [Action Plan for an Age-Friendly Stockport - Stockport Metropolitan Borough Citizen Space - Citizen Space](#)

Recommendation:

The Board are asked to:

- contribute to the plan and to support the wider engagement through their organisations and networks.

Decision		Discuss/Direction	x	Information/Assurance	x
-----------------	--	--------------------------	----------	------------------------------	----------

Aims (please indicate x)

	People are happier and healthier and inequalities are reduced	x
