Summary:

This report outlines the proposals for a 4-year Framework for the provision of All Adults Day Opportunities across the Borough. This report represents the continuation of the strategic approaches outlined in our Adult Social Care Commissioning Strategy, Think Carers Strategy 2024-2029 and The One Stockport Health and Social Care Plan. The Council is committed to working with our partners in the private and voluntary sector to maintain and further develop a strong mixed economy of Day Opportunities that offers choice for individuals and carers and value for money for the Council.

The strategic approach for the development of these services will be in line with the Council's medium term financial plan.

It is against these core strategies and statutory requirements that this report and its recommendations are presented.

Comments/Views of the Cabinet Member: (c)

I'm pleased to present this report on the Day Opportunities Framework for the re tendering of services. The existing framework has provided essential and good quality services for a range of individuals with various levels of need and has been a valuable resource for those individuals and their families. However I am mindful of changing expectations, the challenges of a sustainable social care systems and the need for a more preventative and creative offer to help individuals achieve their aspirations. This framework provides a good opportunity to challenge the market and providers to think beyond building based services and the limitations that these services can present. This framework will provide further opportunities around employment, volunteering and social inclusion working to achieve the spirations of gloriously ordinary lives. I endorse this framework.

Recommendation(s) of Cabinet Member: (d)

Consider and approve the framework to deliver a 4-year Framework for Day Opportunities across the Borough.
