(ii) Public Question Time

Members of the public were invited to put questions to the Chair on any matters in the powers or duties of the Area Committee, subject to the exclusions set out within the Code of Practice.

Two public questions were submitted as follows:-

- In relation to an advertising board and trailer on the land at Padden Brook.

In accordance with the Code of Practice, the Chief Executive was requested to respond to the questioner in writing.

- In relation to the use of a cycle route through Romiley Park.

In response, it was stated that the Romiley Active Travel scheme was about active travel for all, including cyclists, pedestrians, older residents, school children, those with mobility impairments and commuters. A 20 mph speed limit was proposed on residential roads as part of this scheme. The Active Travel scheme had been designed to make sustainable travel easier for all. Furthermore the scheme had provided funding for the crossings in Romiley as part of the overall Active Travel package.

A supplementary question was asked relating to the enforcement of the speed limit on the part of the cycle path routed through Romiley park in order to ensure the safety of other park users.

In response, it was stated that the cycle route through Romiley Park was linked to the Safe Route to School scheme. It was hoped that all those using cycle paths would be courteous and respectful of those around them. Residents were encouraged to report any incidents of anti-social behaviour to the police. Any issues arising as the Active Travel Scheme developed should be reported to local councillors.

## **9. REVIEW OF POLLING DISTRICTS, POLLING PLACES AND POLLING STATIONS**

A representative of the Assistant Director for Legal & Democratic Governance submitted a report (copies of which had been circulated) seeking the views of the Area Committee on the current and proposed polling arrangements within the area in order to inform the 2024 Polling District Review.

The following comments were made/ issues raised:

- At the last general election the location of the polling station at Woodley Primary School had been moved from the junior to the infant school. This move had created accessibility issues for some, particularly voters with mobility issues, as there was an extended walk to that part of the school. Members requested additional communication on accessibility to voters using that polling station for future elections.
- Members commented that a reconsideration of Polling district BR4, currently at the Lisburne School on Guywood Lane, might be necessary as the school had closed and the building was currently empty.
- At the Bredbury Green & Romiley by-election a polling station had been moved from the Cherry Tree Project Hub causing issues for some residents who had to travel further to vote. Members commented that, ideally residents should be able to vote close to their home.

RESOLVED – That the report be noted.

## **10. OBJECTION REPORT RE ATF4 (ACTIVE TRAVEL FUND TRANCHE 4) ROMILEY TRAFFIC REGULATION ORDERS**

A representative of the Director of Place Management submitted a report (copies of which had been circulated) setting out the objections made in relation to the proposed Traffic Regulation Orders connected to the ATF4 Romiley project and seeking approval for the introduction of the Traffic Regulation Orders as originally advertised.

The following comments were made/ issues raised:

- Members noted the ATF4 Romiley Project had been in development for a number of years and that engagement had taken place between Councillors, members of the public, stakeholder groups such as Walk Ride Romiley and council officers.
- Residents had expressed concern about ten meter junction protections and members asked whether ten metres was necessary.
- Members were advised that a ten meter junction protection had been recommended to accord with Section 243 of the Highway Code which stated that stopping or parking was not allowed 'opposite or within 10 metres (32 feet) of a junction, except in an authorised parking space'.
- Members were also advised that a shorter junction protection order could be legally made and that this had been done in other locations across the borough.
- A vehicle parked within ten meters of a junction could be deemed to be committing an offence as in contravention of the Highway Code, even in the absence of a TRO.

- Members had communicated with residents on the necessity of a TRO at that junction where parking had led to difficulties for passing cars; a shortening of the junction protection was a reasonable compromise.

RESOLVED – That the Cabinet Member for Parks, Highways and Transport Services be recommended to make the Order as advertised subject to the amendment of that element of the proposed scheme that related to the introduction of a 'No Waiting at Any Time' traffic regulation order at the, Beech Lane / Church Lane / Chadkirk Road/ Urwick Road junction to reduce the extent of the proposed junction protection measures from 10 metres to 5 metres.

### **11. (RSAS) WOODLEY PRIMARY SCHOOL - OBJECTION REPORT**

A representative of the Assistant Director for Legal & Democratic Governance submitted a joint report on behalf of the Director of Place Management and the Assistant Director for Legal & Democratic Governance (copies of which had been circulated) setting out the objections made in relation to the proposed Traffic Regulation Orders for Clough Meadow, Woodley proposed restrictions.

The following comments were made/ issues raised:

- The junction protections were necessary, particularly given the installation of dropped kerbs which had resulted in parking on the kerb.
- Following residents' feedback the proposals had changed significantly; the right balance had been struck between additional restrictions (particularly during school hours) and residents' concerns.

RESOLVED – That, notwithstanding the objections received, the order be made as advertised.

### **12. APPOINTMENT OF COUNCILLORS TO LAY WREATHS AT REMEMBRANCE DAY SERVICES**

The report also included the current position on the highway and traffic management delegated budget.

Residents would be informed of the outcome of that study.
