

Stockport Trail Half Marathon – 23rd February 2025

Start/Finish Plan

Notes;

- A small PA is used for the safety brief to the assembled runners at 09.25. The briefing lasts five minutes and the PA is not used apart from that. The race will start and finish at the same place on the Middlewood Way trail. Assembly of the equipment for the race will start on the trail at 07.00. This consists of floor and side mounted timing mats, posts and rope plus start banners. We aim to leave a 2m wide path to the side to allow room to the side for horses and other Middlewood Way users to get past. The equipment will remain in place until the last runner has finished and crossed over the timing mat.
- There will be no vehicles parked on the Middlewood Way path. A small van will be parked in the car park to be used as a baggage store and once the race has started we will set up 1-2 gazebos with drinks/cold food in Wood Lane car park. The ambulance will be parked in the car park and the Coffee & Co van is highly likely to be there selling coffee/food. We liaise with them before the race to confirm.
- For the finish there will be a finish funnel constructed of rope and posts and finish banners and finishers will be directed out of the gate and into the car park.
