

Stockport CAN Seed Fund Application

Application number 2e1d75e2

Group name	Greave School - Forest School & Agents of Change
Group description	As the Forest School leader and activator of our school eco group known as ' Agents of Change ' I am committed to providing the best facilities and equipment so that the children can get the full experience of our provision. We have classes outside every school day doing Forest school activities and outdoor learning , these tasks revolve around sustainability and utilisation of our amazing grounds.
Funding requested	£500 2 Wheelbarrows - £120 1000 litre topsoil £100 Tools - miscellaneous - £240 Seeds - £40
Amount requested per ward	£250 from Bredbury & Woodley £250 from Bredbury Green & Romiley
Proposal details	We will use any funding to purchase tools such as spades, mallets , trowels and wheelbarrows and also we need soil and compost plus seeds and plants. The children , in particularly the Agents of Change will use the soil and seeds to sow various crops which we will harvest and give out to children around the school. The tools will be used by virtually every child over a school year as they all get involved in Forest school activities and learning. The tools we have need updating due to useage
How will proposal tackle climate change and / or increase biodiversity	The children are so keen to learn new skills and many give up their lunchbreak to partake in our gardening activities and eco club. We hope to create an ethos of caring and nurturing for our community and environment so that it stays with them into their young adult lives. I also get great feedback from parents whose children encourage the wider family to engage in a more eco friendly lifestyle - we recently took some children to the recycling centre at Sharston and they learnt so much.
How many people will benefit from proposal	350
Who will benefit from proposal	The whole school will benefit - the children , the parents and our amazing grounds will hopefully inspire the wider community as they visit us. The lessons learnt now will benefit society in general going forwards as this group of pupils become adults and future parents
